■ Vision, Mission, Values

Vision

Our vision is to be one of the world's leading integrated sugar producers, respected for the quality of our products and the way we conduct our business.

Mission

To deliver consistently good returns to our shareholders by selling high-quality products at affordable prices, backed by excellent customer service.

To satisfy market demand by producing the very best refined granulated sugar using exceptional resources and processes that comply with international standards and industry best practices

To help Nigeria towards self-sufficiency in sugar production by moving from importation and refining to creating new plantations with their own refining facilities, close to major centres of demand, with a target to produce 1.5 million tonnes of refined sugar by 2024 across more than 150,000 hectares of newly planted land.

To provide economic benefits to local communities by way of direct and indirect employment.

To set a good example in areas such as governance, sustainability, health and safety.

Values

- Customer Service
- Entrepreneurship
- Excellence
- Leadership

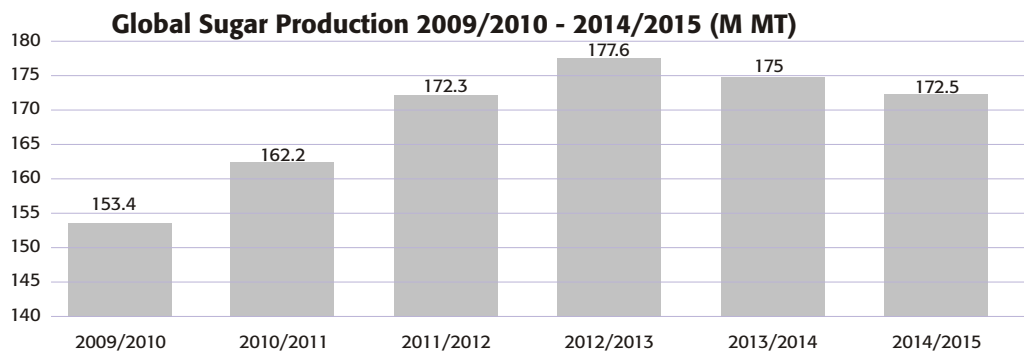

Apapa Refinery, Lagos, Nigeria

Global Sugar Market in 2014

Sugar is a commodity whose price is determined by the dynamics of global supply and demand. Sugar production is affected by weather and the amount of land under cultivation, while the consumption of sugar is driven by macro-economic factors such as increasing wealth and population growth in the developing world, set against conscious reductions in sugar consumption elsewhere.

Although global sugar consumption is rising at present, its growth is being outpaced slightly by the increase in sugar production. Over the last two years, favourable weather conditions and new sugar projects have created surplus stocks that led to a fall in the global price of raw sugar from more than \$450 per tonne to less than \$350.

Estimates Of World Sugar Production, Consumption And Global Surplus For 2013/2014 (million Tonnes, Raw)

Source	Production	Consumption	Surplus
Czarnikow	184.0	181.1	2.9
F.O. Licht	181.4	175.2	4.7
ISO	182.7	178.8	4.0
KINGSMAN	180.3	175.1	5.2
USDA	175.7	168.7	1.5

Taking an average of these estimates, sugar consumption has been on a steady increase over the past few years. In 2014, consumption rose by approximately 2.0% to 175.8MT from 172.3MT in 2013.

About Us

Operational Review

Corporate Governance

Financial Statements

"To this end, our Board is following a prudent course of action that will support our backward integration projects and enable our Company to sustain a stronger financial footing in the future."

Aliko Dangote, GCON
Chairman

Chairman's Statement

Distinguished shareholders,

My colleagues on the Board, invited guests, ladies and gentlemen. It is my pleasure to welcome you all to the 9th Annual General Meeting of our company, Dangote Sugar Refinery Plc, at which I will also present to you the Annual Report and Financial Statements for the year ended 31st December, 2014.

2014 was a year of challenges in our operating environment, particularly in the areas of declining purchasing power and security issues in the North Eastern part of the country. The situation and its impact on our business was a harsh reality, which we had to face and manage to the best of our ability.

Despite challenging circumstances in the past year, the Group posted a turnover of ₦95 billion in 2014. Profit Before Tax (PBT) stood at ₦15.3 billion, and Profit After Tax (PAT) ₦11.6 billion. Earnings per share totaled 97kobo per share an 8% increase over the corresponding period in 2013.

Worthy of mention is the resounding and unprecedented success of the recent presidential elections in Nigeria which gives much cause for optimism and we look forward to a stable future in the country, in which our business will thrive and continue to grow.

2014 Dividends

It remains the Company's policy to return part of its profits as dividends to shareholders at the end of each business year. The dividend paid depends on the Company's financial performance, investment decisions, liquidity levels and banks balances. In view of the significant investments required for our backward integration projects, your company is in need of additional funding. As such, your

"2014 was a year of challenges in our operating environment, particularly in the areas of declining purchasing power and security issues in the north eastern part of the country"

Board has taken the decision to reduce the dividend payment for the year from 60 kobo per share to 40 kobo per share. This is a transitional situation, requiring our short term sacrifices in order to build for the future, and is necessary for us to maintain prudent capital and liquidity levels, to sustain our operations, in tandem with our backward integration projects.

To this end, your Board is following a prudent course of action that will support our backward integration projects and enable our Company to sustain a stronger financial footing in the future.

The Global Sugar Market

Conditions in the global sugar market were generally favourable to our refining business in 2014. The consumer demand in emerging markets remains subdued, despite population growth and the seeming gradual recovery in market economies, world sugar prices reflected surplus supply conditions and maintained a downward trend.

From the very late 1990's up until 2014, the Global Sugar Manufacturing industry has had to contend with increasing production and volatile price levels. The increasing diversion of sugar stocks to ethanol production in Brazil did however, limit the buildup of surplus stocks. Raw sugar prices declined during the year, which led to a reduction in the dollar value of our raw sugar imports within the period.

Also, the European Commission confirmed the abolition of sugar quotas from October 2017, and this placed a further cap on world sugar prices. As European sugar producers position themselves for a post-quota market, we will continue to expect more volatility in market prices.

Nigerian Sugar Market in 2014

The Nigerian Sugar Market has seen an increase in investment activity during the year owing to the various initiatives that were prompted by the implementation of the Federal Government's National Sugar Development Plan. This plan has seen the

About Us

Operational Review

Corporate Governance

Financial Statements

Chairman's Statement

existing sugar operators invest in sugar plantations across the country in addition to consolidating their own refining activities.

Despite a sluggish global demand trend, our market remained strong in the year. We had to contend with heightened insecurity in north eastern Nigeria, along with other consumer oriented businesses. Access to our key markets was hampered, while we also had to grapple with reduced consumer purchasing power and the periodic menace of low-priced unlicensed imported sugar. Notwithstanding this, our local sales volumes exceeded 780,000 tonnes in 2014, a slight reduction on the prior year.

Our Strategy

Recall that we have already begun the implementation of our sugar development plans. Ten years from now, our target is to produce 1.5 million tonnes of refined sugar from locally grown sugarcane that is processed at our own, onsite facilities in locations close to key Nigerian markets. We will maximise opportunities to benefit from the extended value chain in sugar production, with the production of fuel ethanol and the generation of electricity from our factories. We believe that our expansion project will generate more than 100,000 job opportunities in the coming decade.

In 2014, we carried out an evaluation of our projects with the help of our technical partners. As a result of this evaluation, we have adjusted our expansion plans in line with market conditions and will now implement the overall project in stages.

We have begun with the rehabilitation of the Savannah Sugar operations as a model for our plan, which will then be replicated across our other project sites. The Savannah rehabilitation will be undertaken in parallel with the greenfield development of a 23,000 hectares project in Taraba State within the next 3-5 years. This will be followed by the development of our other sites to cumulate the project within the 10 year plan.

Oil and Currency Impact in Short-Medium Term

The beginning of 2015 has seen a carryover of the challenging business environment with even more impact on our cash resources. The devaluation of the naira amongst other uncertainties cast a shadow on the business environment. Lower oil prices and the naira depreciation had an impact on our raw material costs and we recognise that passing these costs fully to the already liquidity squeezed consumer environment is a major challenge.

The Central Bank of Nigeria closed the RDAS/WDAS Foreign Exchange Window and directed all demand for foreign exchange to the Interbank Foreign Exchange Market. This development together with a general shortage of foreign currency and any further devaluation of the naira, will make the current business year difficult for us, as we consolidate and invest for the future.

However, we have a firm belief in the viability of the Nigerian economy, and maintain a positive outlook for future investment. The Board will continue to guide our Company by employing strategies that will guarantee a sustainable future for our business.

"We are driven by a desire to contribute positively towards the development of the communities in which we operate, and to society at large."

Improvements in Governance and Risk Management

We are driven by a desire to contribute positively towards the development of the communities in which we operate, and to society at large. As such, our Environment, Health & Safety, and Social Investment Agendas were enhanced during the year under review across all our operations.

Chairman’s Statement

The Board is a firm believer that the sustainability of our business is interwoven with the health & safety of our people and a strong attitude of caring for our environment. This is guided by good corporate governance and effective risk management initiatives that are now being implemented within the Group.

Dangote Sugar will continue to implement its sustainability agenda, which is the platform it uses in the delivery of its commitments with focus on environmental awareness, promoting health and safety and minimising the risks within our operations.

Board of Directors

Since the last Annual General Meeting, there have been no changes in the Board composition. The Board is currently made up of two (2) Executive Directors, Eight (8) Non-Executive Directors including the Chairman, three (3) of which are Independent. Three (3) Directors will retire by rotation at this meeting and the Directors eligible will present themselves for re-election at this meeting. Details of the members of the Board of Directors are shown on pages 39 to 42 of the annual report.

Despite our present economic challenges, the Board remains very confident that our company is positioned strongly to enhance its leadership position and our expansion strategy will deliver business success and long-term value for shareholders.

My sincere appreciation goes to my fellow Directors for their contributions. I also appreciate our esteemed shareholders, customers, suppliers and every stakeholder for their continued support and partnership.

Our employees remain the key to our success, and without their commitment, all the operational improvements we have recorded over the years, would not have been possible. I am confident that we have the right strategy, the people and resources to continuously deliver sustainable growth for the company, and returns to shareholders in the years ahead.

Thank you.

Aliko Dangote, GCON
Chairman

Apapa Refinery Jetty

About Us

Operational Review

Corporate Governance

Financial Statements

Company Overview

Dangote Sugar Refinery Plc (“Dangote Sugar” or “DSR”) is a household name in the sugar refining sector of the Nigerian Food and Beverage Industry. Our entry into the sugar business dates back to the 1970s with the import and sale of sugar by our parent company, Dangote Industries Limited.

Today, Dangote Sugar is a leading brand that has made a remarkable impact on the Nigerian sugar sector. Our sugar refining facility at Apapa is the largest in Sub-Saharan Africa, with 1.44MT per annum installed capacity. Our core competences include:

- Refining of raw sugar to make high-quality Vitamin A fortified and non-fortified granulated white sugar
- Marketing and distribution of our refined sugar grades in 50kg, 1kg, 500g & 250g packages
- Cultivation and milling of sugar cane to finished sugar from our subsidiary, Savannah Sugar Company Limited
- Development of greenfield projects in

line with our strategy, “Sugar for Nigeria,” which in turn is an integral part of Nigeria's National Sugar Master Plan

In addition, our business provides key value-added support services for our customers including logistics, supply-chain management, credit and risk advice, sales and merchandising.

We operate to international standards of food production, health and safety and have been honoured with numerous awards for our work.

Dangote Sugar Refinery Plc was listed on the main board of the Nigerian Stock Exchange (NSE) on 18th March, 2007. With more than 102,000 shareholders as at 31st December, 2014, the authorized share capital of DSR Plc is ₦6 billion, amounting to 12 billion shares of 50 kobo each. Dangote Industries Limited has a majority shareholding of approximately 67.66% while 32.34% is held by other shareholders.

Operational Review

We are the sugar in your tea

At Dangote our goal is to improve everyday life, by providing high quality products and services, whether it's food, shelter or communication. It is our way of raising the quality of life for all, making life just a little sweeter for everyone.

Our Operations

Dangote Sugar Refinery, Apapa

Our flagship refinery complex is located at Apapa Wharf in Lagos, with a dedicated jetty that berths large shipments of raw sugar from Brazil. The facility was commissioned in 2000, with an initial refining capacity of 600,000MTPA. Over the years, the facility has undergone two major upgrades that have turned it into one of the largest sugar refineries in the world with 1.44MTPA refining capacity. The refinery is powered efficiently with gas and/or Low-Pour Fuel Oil (LPFO) with 16MW of in-house generating capability.

Over 2013-14, the facility benefited from further upgrades that now enable it to achieve more efficient sugar yields. We continue to improve its efficiency and are installing a new high-pressure boiler, upgrading automation and improving energy conservation.

The energy-saving project is an advanced engineering intervention to improve the efficient use of energy in our sugar refining process. When completed, the scheme is expected to reduce our cost of production, increase productivity and further improve the quality of our refined sugar. Together, these

initiatives will enhance our competitive position in the Nigerian sugar industry.

Our refining operations are supported by warehouses located strategically across the country and served by more than 400 trucks that take our finished products to market.

Sugar for Nigeria - The Future of our Business

Nigeria has always imported sugar, either raw for refining or in its refined and granulated forms. This dependence on imports is a reflection on the fact that until recently, Nigeria has had no native sugar production industry of any scale and there was little incentive to create one. Yet Nigeria is a country that is blessed with abundant fertile land suitable for planting sugar cane.

Recognising this paradox, the Federal Government drew up the Nigerian Sugar Master Plan, which is an ambitious drive to make Nigeria self-sufficient in this most basic commodity, at the same time reducing outflows of Nigerian cash for imports and creating thousands of jobs in sugar production. This policy of 'Backward

Our Operations

Integration' – achieving self-sufficiency by turning importers into producers has already achieved spectacular success in the Cement industry where, benefiting from favourable tax incentives and the phasing out of imports, our sister company, Dangote Cement Plc, has almost single-handedly made Nigeria self-sufficient in cement.

Dangote Sugar is an integral part of this national plan. In 2012, we committed ourselves to becoming an integrated sugar business, serving local and export markets from integrated plantation and refinery sites that we plan to build across Nigeria. Our goal over the next ten years is to reach a capacity to produce 1.5 million tonnes of refined sugar every year from locally grown sugarcane. At the same time, we will sustain and improve our existing refining operations as necessary. Pursuing this goal will ensure that Dangote

Sugar becomes a global force in sugar production, for the benefit of our shareholders and all Nigeria.

We have set out to achieve this target by the planting and cultivation of sugarcane on new plantations covering more than 150,000 hectares of land across a number of sites in Nigeria. The implementation of our development plan has commenced with the rehabilitation and expansion of Savannah Sugar in Adamawa State, which was acquired in December 2012. As shown in the map below, we plan other integrated sites in locations close to suitable land with good irrigation, close to key markets. We have begun acquiring additional sites and are engaging competent technical partners to plan and develop the necessary agricultural work, factory design and project planning.

Highlights of Dangote Sugar's Expansion Plan

- Move from port-based refining to fully integrated sugar production within Nigeria, thereby helping Nigeria to achieve self-sufficiency in sugar production
- Develop, in the next 5-10 years, the capacity to produce 1.5 million tonnes of sugar a year from more than 150,000 hectares of locally grown cane at existing and new plantations
- Create more than 100,000 new employment opportunities

Our Operations

New Sugarcane plantation at Savannah

Savannah Sugar Company Limited

Savannah Sugar Company Limited (SSCL) is an existing cane sugar production operation located on 32,000 hectares of land in Numan, Adamawa State, Nigeria, with a milling capacity of 50,000 tonnes of sugar per annum.

At present, however, SSCL produces refined sugar from just 6,750 hectares of sugar cane cultivated on its sugarcane fields. As part of our growth strategy, SSCL is undergoing rehabilitation and expansion so that much more of its land can be planted and harvested effectively. Investments have already been made and are ongoing in land preparation and development, farm machinery, environmental improvements, employee welfare and manpower training and development.

This expansion project will increase sugar milling capacity to some 260,000 tonnes of sugar per annum, from sugar cane produced on approximately 25,000 hectares of cultivated land. Rehabilitation of the SSCL estate has commenced and land development and planting of new areas to sugarcane will continue over the next two years. The project will include the development of 25,000 hectares of land by 2018, an out-growers scheme and the refurbishment of infrastructure within the estate, as well as a significant upgrade to its existing factory. In addition, a new factory is also under consideration to process the increased cane supply.

SSCL employs 700 full-time staff, and 4800 part-time staff, with seasonal workers during the harvest season.

About Us

Operational Review

Corporate Governance

Financial Statements

Our Operations

Expansion Projects

Apart from the rehabilitation of Savannah Sugar's plantation and factory infrastructure, our growth strategy to farm more than 150,000 hectares of planted sugarcane by 2023 includes the creation of integrated plantation and refinery facilities at the following locations:

- Lau/Tau, Taraba State
- Hadejia, Jigawa State
- Zaria kalakala, Kebbi State
- Kpada, Kwara/Kogi States

Integrated sugar mills will be sited at these locations to:

- Refine white sugar from locally grown sugarcane to sell into local markets and where appropriate, to export to other markets across West Africa.
- Generate power from bagasse for own use, with any excess electricity being sold to the national grid.
- Produce Fuel Ethanol (ethyl alcohol).
- Produce Animal feed from molasses and bagasse.
- Produce Bio-Fertilizer from press-mud/filter cake during sugar manufacturing.

Expansion Project Phase 1

This first phase of the project has begun with pre-project implementation activities including:

- New site selection/suitability (soil Assessment, topography, climate, water and Irrigation potential)
- Project design, detailed studies and development of implementation strategy
- Partnership with technical consultants to conduct feasibility studies and develop appropriate designs
- Investment in farm machinery and equipment

- New sites survey and land development; Seed cane production; planting; irrigation; industrial development; housing and amenities

This phase also includes the rehabilitation and expansion of Savannah Sugar's estate, which will be used as a model for the other locations. We have begun with the following activities:

- Land development and expansion of cane production at Savannah.
- Refurbishment/Upgrade of SSCL facilities (factory, housing & amenities).
- Reintroduction of a robust out-growers scheme.
- Charting community relations & development initiatives guided by consultations and engagements with the local communities in which we will operate. The initiative will be implemented through various environmental, healthcare, educational, skills acquisition and job creation programmes to make a positive impact on the living standards in these communities, aimed towards fostering a sound cordial relationship with them.

Lau/Tau, Taraba State Project

The Lau & Tau Sugar Project will be the first of the new sites to be developed over the next three years. The area is located on the south bank of the Benue River in Taraba State, about 30 km Northeast of Jalingo.

The project will be an independent sugar estate, as per the Savannah model, with its own sugarcane plantation and mill. Land acquisition for the site is nearing completion and pre-project development activities have commenced on the site. Soil and topographic surveys of the land have been concluded and verification of irrigation water availability is underway to better determine bulk water supply and the location of abstraction points. An environmental and social impact assessment is also in progress.

Our Operations

Initially, 18,000 hectares growing to 23,000 hectares will be planted with room for the development of nearby lands as an out-growers scheme. The project will produce 2.3 million tonnes of sugarcane. Lau/Tau will have a cane milling factory capable of handling 12,000 tonnes/day, and the aim is to produce 250,000 tonnes of refined sugar per annum.

The main source of irrigation for the Lau and Tau project will be the Benue and Lamurde Rivers. To achieve our target for factory

commissioning in 2018, we have started building up our cane supply with the establishment of a sugarcane nursery at Lau & Tau. The seed cane nursery will be used to plant a commercial nursery, and thereafter to fully develop the total area to be planted.

The cane from the nursery will be used to plant sugarcane during the next three years, with a target of 2018 for the first commercial harvest. This will coincide with the commissioning of a new factory at the site.

About Us

Operational Review

Corporate Governance

Financial Statements

Our Operations

Hadejia, Jigawa State Project

The Jigawa State project site is a 21,449 hectares of land located at Hadejia. An environmental and soil impact assessment is underway. In addition, soil surveys and topographical assessments have been completed. Our technical partner have commenced the agricultural design as part of a detailed feasibility study. Factory requirements will be met by the design of a 12,000tonne/day sugarcane milling facility.

Expansion Project Phase 2: Kebbi And Kwara/kogi States Projects, 5-10 Years

The second phase of expansion into new sites will cover two further locations in Kebbi and Kwara/Kogi states over the next 5 to 10 years.

These projects will have integrated sugar operations on 60,000ha area in Kebbi State, and 36,000ha at Kwara/Kogi States.

The approvals for the sites have been obtained from the relevant authorities and the soil and topographical surveys concluded. We are now finalising the land acquisition processes. Once concluded, the pre-project activities will commence at these locations to ensure the target deadline is met.

New Sugarcane Nursery at Lau/Tau, Taraba State Project Site

Our People

Our people continue to be the driving force behind our business, therefore, our human resources and manpower development strategies are aligned with our business objectives and aspirations.

During the year under review, we reviewed our organisational development, with talent management, performance management, employee engagement and competitive appraisal systems redesigned to motivate our employees. We are building capability and leadership among our people and attracting some of the best talent in the marketplace. The development of relevant competences remains an important priority for management.

During the year, in addition to 'on the job learning', 96% of employees attended in-house training, local and international learning and developmental courses to upgrade their skills for optimal performance.

The Group has designed and is implementing a performance management system, which will help us to identify gaps in our reward system and address specific training development needs of our employees.

The Company has maintained harmonious industrial relations with employees. With our robust aspirations for the future, our employees are carried along with developments in the company with periodic briefing by our management. We will continue to upgrade the skills and competences of our people to firmly position us as a leading sugar industry business.

Our Approach To Sustainability

Our sustainability approach is driven by a desire to contribute and impact positively towards the development of the immediate communities we operate in and society at large.

In 2014, our Environmental, Health and Safety, and Social Investment efforts were enhanced with the consolidation of existing and development of new group-wide policies that will guide our approach to this very important aspect of our businesses. These efforts are coordinated by a central group directorate at our parent company, Dangote Industries, who work with the sustainability team in Dangote Sugar to ensure that policies and standards are implemented to meet the specific requirements of each business.

For Dangote Sugar, this sustainability agenda guides the delivery of our commitments in this area, with focus on promoting Health and safety within our operations, as well as supporting our commitments to the host communities of our projects.

1. Savannah Sugar Staff School Children
2. & 3. Presentation of the Patrol Vehicles to NAFDAC

Health and Safety

We are committed to the implementation and maintenance of Occupational Health and Safety Management Systems (OHSMS) that aim at the prevention of occupational injury and ill-health to all people who have access to the organisation's workplace. A strong commitment to continuous improvement is needed for production, sales and delivery of refined granulated white sugar in compliance with relevant legal, statutory and other requirements.

During the year under review, we enhanced our commitment to ensuring zero accidents across our operations, with an improved health and safety strategy, with the objective of building and reinforcing a winning safety culture amongst employees.

Our slogan remains: "Safety First. If it is not safe, don't do it."

The occupational health & safety policy is documented, monitored and sustained through adequate communication, supervision and awareness creation to all employees, suppliers and all stakeholders in line with the requirements of the OHSAS 18001:2007 safety system.

Health, safety and environmental workshops are organised for all employees with a broad focus on continuous improvement to ensure

a safe working environment, with minimal risk to their health, as we strive to achieve zero accidents in our operations.

In addition, the Staff Welfare Unit organizes health awareness talks, seminars and programmes with professionals in the health sector on various health issues and diseases such as HIV/AIDS, high blood pressure, personal hygiene, Ebola, Diabetes, and other serious diseases.

Food Safety

The Dangote Sugar Refinery Plc food safety policy ensures that our operations in refining, sales and distribution of granulated white sugar meet statutory, regulatory and consumer food safety requirements, using the most appropriate food grade production facilities under hygienic conditions, whilst also maintaining effective communication with stakeholders on food safety issues.

Our food safety policy is supported by measurable objectives that are monitored, maintained and continually reviewed with the objectives:

- a. To provide wholesome and nutritious sugar that supports healthy living
- b. To achieve 100% compliance with all relevant customers', statutory and regulatory food safety requirements
- c. To ensure that all relevant parties in the food production chain are aware of, and comply with the company's food safety requirement.

Dangote Sugar Refinery Plc is FSMS (Food Safety Management System) ISO 22000:2005, certified, and we are working towards the achievement of the FSSC 22000 (Food Safety System Certification); before the end of the 2015 business year. The FSSC 22000 (Food Safety System Certification) is a Global Food Safety Initiative (GFSI).

This food safety certification and other efforts in the continuous improvement of our product quality and standards has made Dangote Sugar the preferred brand of most multinational corporations in the Nigerian food and beverage sector.

“Our food safety policy is supported by measurable objectives that are monitored, maintained and continually reviewed to achieve 100% compliance, with applicable customers, Statutory/regulatory food safety requirements”

3. Vee Processor: the Vitamin A Mixer. Vitamin A is added to our sugar for the required 25,000 iu/kg minimum

Our Approach To Risk Management

Risk management remains integral to our operational strategy and the achievement of our long-term goals. Given the volatile environment we operate in, our businesses are subject to risks and uncertainties. The Board, therefore, have during the year under review paid particular attention to sharpening our focus on the following key risk areas: credit, market, liquidity, operational and safety risks.

A new approach to risk management was developed, with a robust risk framework piloted by the Audit and Audit/Risk Management Committee of the Board of Directors, in line with internationally accepted standards.

The Board of Directors are advised by its audit and audit/risk management committee where appropriate; they regularly review the significant risks and decisions that could have a material impact on our business. These reviews provide a clear position on the level of risk that we can take in pursuit of our business strategies, and the effectiveness of the management controls in place to mitigate the risk exposures.

The risk management department has been

strengthened by the appointment of professional risk managers to ensure a holistic fit-for-purpose approach, with a robust framework for timely identification, measurement, control, reporting and monitoring of risks in the company. This approach has been designed to provide reasonable assurance that our assets are safeguarded, while the risks facing the businesses are assessed on a continuous basis to mitigate any eventualities.

Periodically, the audit and audit/risk committee, through the Group risk team review and assess the internal controls and procedures, approved by the Board of Directors; testing effectiveness and the remedial actions to be taken should the need arise.

As a result, our people are more aware that our success as an organisation does not just depend on our ability to identify and exploit the opportunities that are available in the markets we operate in. In addition, we must adopt a prudent approach to risk management, which if not well managed could impact on our ability to meet our targets and profitability and could also be detrimental to our reputation.

About Us

Operational Review

Financial Statements

Group Managing Director's Review

"Our sales and marketing objectives during the year remained the sustenance of our leadership position and enabled us to maintain the largest market share in Nigeria."

During 2014, our primary focus was to enhance our operational efficiency, focus on our growth plans, increase sugar production, and to continue to provide for the needs and requirements of our customers, employees and stakeholders generally. Regular communication with our investor community continued via quarterly financial and performance updates designed to give a better understanding of the key drivers of our business, as well as describing our achievements, challenges and aspirations for the future.

Our performance in 2014 was negatively impacted by operational challenges including disruptions to the supply of natural gas (our primary energy source) to the Apapa Refinery, currency depreciation and the challenges of the security situation in North-Eastern Nigeria.

We were, however, able to mitigate the impact of

these factors by commissioning an alternative boiler fuel system (using low pour fuel oil), which sustained our operations, whilst also benefitting from lower raw sugar prices during the year.

We were able to increase selling prices to offset cost increases brought about by currency devaluation in the last quarter of 2014. Our sales team worked continuously with our trade customers to sustain their needs in troubled parts of the country and we were also able to improve the supply of high quality refined sugar to our corporate customers.

Group sugar production totaled 838,993 tonnes for the year, compared to 819,996 tonnes produced in 2013. A total of 832,660 tonnes of refined sugar was produced at the Apapa refinery (2013: 814,910 tonnes). At Savannah, sugar production increased to 6,333 tonnes from 5,036 tonnes produced in 2013, reflecting the beginning of our rehabilitation and expansion activities.

Group sugar sales volume was 781,319 tonnes (2013: 804,258 tonnes). Local sales declined by 3%, reflecting the challenges faced in the domestic market. No sugar was exported in the year compared to 15,000 tonnes exported in 2013, this being due to unattractive export prices prevailing during 2014.

Turnover for the year reached ₦95billion, (2013 ₦103billion), and the refinery achieved a gross operating margin of 23% compared to 26% in 2013. Group profit before tax and profit after tax stood at ₦15.3b and ₦11.6billion, respectively, compared to ₦16.3billion and ₦10.8billion achieved in 2013. Group earnings per share increased from 90 to 97 kobo per share. During the year, our cash needs were met from cash generated from our Apapa Refinery operations. Investments made in respect of the various projects we have embarked upon in sugar production and equipment/operational upgrades were funded from these internal resources, as well as our expansion project needs. These investments are the foundation that will support our sustainable growth over time by improving our operational efficiencies, output and returns to shareholders in the years to come.

As part of our operational focus, we continue to implement various projects at the Apapa Refinery geared towards achieving improved operational efficiency and increased output.

Group Managing Director's Review

We are also in the process of upgrading our quality systems, working towards achieving the Food Safety System Certification (FSSC 2200); a Global Food Safety Initiative (GFSI) recognised scheme, before the end of 2015. This certification will further boost our food safety standards and position our product as the preferred brand to companies in the pharmaceutical and food and beverage industries in Nigeria.

Our activities were further enhanced in the year with a strengthened Enterprise Wide Risk Management approach. This will enable us to better manage existing and emerging business risks via a process that effectively identifies, measures and monitors the risk environment in which we operate. The introduction of a capital projects function will also help us to successfully undertake capital projects through planning, project management and formal tracking against our project objectives.

Our sales and marketing objectives during the year remained the sustenance of our leadership position and enabled us to maintain the largest market share in Nigeria. To achieve this, we focused on the upgrading of our sales and marketing strategy by developing and implementing new initiatives to maximise our strengths in the market. Fixed-term supply agreements were negotiated with corporate customers, customer performance incentives were continued and technical and market support was provided where needed. To this end, we established new distributors, enforced rigorous compliance to our trade terms and facilitated customer forums to enable us to work with our customers to maximise their growth potential.

Our sugar development projects continued in the year, with technical evaluation and design activities for our identified opportunities being progressed. The agricultural and factory rehabilitation of Savannah is ongoing, and a total of 1,223 hectares was redeveloped in the year, with plant, equipment and field machinery deployed as necessary. This redevelopment area will increase to a targeted 2,735 hectares in 2015, and accelerate thereafter to fully develop all available land over the next 3 years.

The 2014, sugar production season at Savannah commenced in January 2014 and ended in April 2014. Cane production during the year was negatively impacted by the challenges faced on the estate in the prior year. As a result, cane yields remained low, although higher than the prior season average, and a total of 123,494 tonnes of cane was harvested, compared to 102,181 tonnes of cane harvested in 2013. The 2015 harvest commenced in January 2015, with improved cane yields being recorded to date following new area planted and improved cane husbandry on the estate. The sucrose content in the cane is also much improved and sugar production in the coming season stands to exceed prior-year achievements.

Our additional expansion plans on the identified sites continues to gain momentum, with our goal remaining to achieve 1.5 million tonnes of refined sugar per annum in the next 10 years, from locally grown sugar cane that is produced and processed at the new facilities in Nigeria. We have redrawn our project implementation plans to develop these new projects in two phases.

Retail Sugar Packaging Plant

About Us

Operational Review

Corporate Governance

Financial Statements

■ Group Managing Director's Review

The first phase will include the ongoing rehabilitation and expansion of Savannah to ultimately produce 260,000 tonnes of refined sugar per annum. In parallel, we will commence the development of the Lau/Tau project in Taraba State and will also mobilise to commence the development of a second new site at Hadejia in Jigawa State. Site evaluation and technical design work is progressing in respect of these two new sites and land acquisition procedures are nearing completion at Lau/Tau and continue at Hadejia. It is anticipated that these projects will span a 5-year horizon, the intention being to produce up to 750,000 tonnes of refined sugar in this first phase.

When the first phase of our development is nearing completion, the second phase of our expansion plan will be to commence development in Kebbi, Kwara and Kogi States. Site evaluation and technical analysis of these sites is underway in order to complete all preliminary work well ahead of the development timetable for these sites.

As an organisation, sustainability and equitable growth remain key drivers of our business operations. During the past year, various

sustainability initiatives have been progressed to improve our environmental, health and safety and social investment agendas. Ultimately these initiatives will contribute to improved operational efficiency, the reduction of operating costs and better management of operational risk.

The implementation of enhanced health and safety initiatives continues in order to improve the working environment of our employees. Ongoing safety awareness campaigns and the implementation of improved workplace safety procedures is part of our drive to upgrade and heighten workplace safety awareness amongst our workforce, service providers and visitors to our facilities. We will continue to strive towards an accident free environment with health and safety procedures designed to lift the wellbeing and productivity of our workforce.

The outlook for 2015 remains challenging in the face of external factors such as currency devaluation that might have an impact on our business. Attention will be focused to mitigating the potential negative impact of these factors as we strive to sustain our growth during 2015.

Graham Clark
Group Managing Director

Land preparation activities at Savannah

Corporate Governance

Corporate Governance Report

Dear Shareholder,

Dangote Sugar Refinery Plc. (DSR) is committed to best practice and procedures in Corporate Governance. The Board put in place mechanisms that assist it to review, on a regular basis, the operations of the Company so as to ensure that our business is conducted in accordance with good Corporate Governance and global best practices.

Transparency in Financial Reporting and Internal Control

Dangote Sugar Refinery Plc produces a comprehensive annual report and financial statements in compliance with the Company and Allied Matters Act. We put in place adequate internal control procedures and ensure that the documents reveal the business and provide detailed audited financial statements in accordance with the relevant accounting standards and regulations.

E-dividend

Consistent with the Dangote Sugar Refinery Plc business strategy, shareholder value Creation and commitment to good Corporate Governance, we are encouraging our shareholders to embrace the e-dividend. This is to enable us to pay the dividend due to shareholders by crediting their bank accounts with dividends immediately after they are

declared. Consequently, we have requested all shareholders to complete the detachable form in the annual report, in order to provide our registrars, Veritas Registrars Limited, with their bank and other details.

Board of Directors

The Board currently consists of ten (10) members, the Chairman, Group Managing Director, Deputy Group Managing Director and seven non-executive Directors, three (3) of whom are Independent Directors. The Board has the overall responsibility for ensuring that the Company is appropriately managed towards the achievement of the Company's strategic objectives. The Board is headed by a non-executive Chairman.

Responsibilities of the Board Of Directors

The general responsibilities of the Board include but are not limited to the following:

- Defining the vision, goals, objectives and strategic priorities including recruiting and evaluating the performance of the Officers; reviewing the company's organisation and remuneration structure; and establishing a succession plan for the GMD and the senior officers.
- Establishing the overall business objectives and strategies, and through an institutionalised strategic planning process, consider whether they continue to be appropriate in the context of the business environment, taking responsibility for issuing the audited financial statements and ensuring the high quality and reasonableness of the accounting and financial management.
- Reviewing the short, medium and long-term strategic, financial and business plans including reviewing the annual budget of the company as well as major risks to which the company is exposed.
- Providing a broad oversight of the overall activities and affairs of DSR and the effective performance of management and monitoring the deployment of financial and human resources for the achievement of those plans.

Corporate Governance Report

- Reviewing and approving all major capital expenditure and material projects such as investments, divestments, mergers and acquisitions or other business combinations.
- Establishing procedures for the approval of and approving all significant acquisitions and major contracts outside the ordinary course of business.
- Approving the declaration of dividends, stock buy-backs and new issuances of shares, restructure of the capital and share reconstructions including those associated with employee equity or incentive programmes.
- Approving the framework for the delegation of authority to the GMD and Management and defining the powers reserved for the Board.
- Approving the appointment of other directors including their training as may be recommended by the governance committee.
- Ensuring that an effective management team is in place and appointing key officers of the Company, including the GMD, company secretary and internal auditor.
- Approving a competitive compensation structure for the non-executive Directors subject to the Articles of Association and laying the statutory Directors' fee before the AGM for approval upon the recommendation of the governance committee.
- Approving a mandate or charter for the Board and establishing Board Committees as well as approving their mandates or charters.
- Receiving concise reports from Board Committees at the next Board meeting after the committee meeting and a written report or copies of the minutes.
- Setting performance objectives and approving key performance indicators for the company and its committees and ensuring the regular evaluation of the effectiveness and performance of and the operations of the Company and associated companies.
- Periodically reviewing the organogram and approving all major changes to the structure of the organisation as well as reviewing the management succession plan and human resources plan.
- Overseeing employee compensation plans to ensure that they are consistent with the sustainable achievement of business objectives, prudent management of operations and consistent with ongoing assessments of the risks to which the company is exposed.
- Approving a risk management framework, setting the risk threshold, monitoring the major risks to the Company and ensuring that management takes actions to mitigate those threats, which may include but are not limited to those pertaining to operations, raw materials, product or stock availability, quality, price, liquidity, interest and exchange rate changes, capital market dynamics, on-going availability of capital and cash flow to operate the business, profitability, insurance, safety, people and reputation risks.
- Ensuring that an effective and secure Whistle Blowing Policy and adequate structures by which staff and stakeholders can raise concerns about possible or potential improprieties are in place.
- Ensuring there is an appropriate framework of internal controls in place and monitor ongoing reports on the adequacy and continuous improvement in such controls.

Corporate Governance Report

- Reviewing IT systems policies and disaster recovery plans; and
- Approving that the appointment, reappointment or removal of the external auditor be put to the Annual General Meeting for approval and recommending to the general meeting, the appointment of the external auditor as determined by the audit committee.
- Approving all policies and revisions thereof, including those pertaining to corporate disclosure and communications, finance and accounting, credit, risk management, operations, IT, liquidity, funding, profitability and capital management.
- Overseeing the correctness of communications with shareholders and stakeholders including communities, interim and annual financial statements, shareholder meeting materials, etc.
- Checking that compliance documents are filed correctly and in a timely manner with applicable company, securities and other regulators, including but not limited to, the Securities and Exchange Commission, the Nigerian Stock Exchange the Corporate Affairs Commission, NAFDAC, SON and similar filings with other applicable authorities.
- Approving policies to improve the corporate governance system and ensuring that DSR operates within the laws of the Federal Republic of Nigeria and institutionalising conduct that promotes, maintains and enhances the integrity and reputation of the company; and
- Establishing high standards of business conduct and ethical behaviour for directors, officers and employees including disclosing potential areas of conflict of interest and ensuring that there is an ongoing process for ensuring compliance with those standards.

The Board carries out the above responsibility through the Board Committees whose terms of reference clearly set out their roles, responsibilities, scope of authority and procedures for reporting to the Board. Each committee is chaired by a Non Executive Director to ensure strict compliance with the principles of good corporate governance practice, while a representative of the shareholders chairs the Audit Committee.

The various Committees of the Board assist the Board of Director's in fulfilling their oversight functions regarding financial reporting, risk management, Internal control, employee welfare etc in line with regulatory and corporate governance practice requirements.

Meetings of the Board of Directors

The Board of Directors holds at least four (4) meetings a year, to consider important corporate events and actions such as approval of corporate strategy, annual corporate plan, review of internal risk management and control systems, performance review; direct the affairs of the Company, its operations, finances and formulate growth strategies. It may however, convene a meeting whenever the need arises. During the year under review, the Board of Directors and the board committees convened several meetings.

Record of Directors' Meeting

In line with the provisions of Section 258(2) of the Companies and Allied Matters Act, Cap. C20 Laws of the Federation of Nigeria, 2004, the record of Directors' attendance at Board meetings is available for inspection at the Annual General Meeting.

Committees of the Board of Directors

The Board delegated some of its responsibilities to standing committees that consist of Executive and Non – Executive Directors. In compliance with the practices of good corporate governance, the Chairman of the Board of Directors is not a member of any of these committees. The committees are the Governance, Finance and Audit/Risk

About Us

Corporate Governance Report

Management Committees. The committees report to the Board of Directors on their activities and recommendations, which are ratified by the full Board, at a meeting.

Finance Committee

The Committee is comprised of six Directors, with an Independent Director as Chairman.

Members of the Committee are:

Ms. Bennedikter Molokwu	- Chair Person
Mr. Olakunle Alake	- Member
Alhaji Abdu Dantata	- Member
Engr. Abdullahi Sule	- Member
Mr. Graham Clark	- Member
Ms. Maryam Bashir	- Member

Responsibilities of the Finance Committee

- Review and recommend for approval by the Board, the financial and business plan of the Company as well as its quarterly and annual operating and capital budgets and forecasts as well as revisions thereto proposed by management.
- Ensure the completeness and accuracy of financial statements – quarterly, half year and annual accounts, make reports and recommendations and oversee the proper disclosure of its financial information.
- Review the capital appropriation plans of the Company and provide advice and guidance on the authorization limits established by the Board.
- Review, as it is deemed appropriate, the Company's financial policies, capital structure, matters affecting the capital like mergers and acquisitions, divestments and acquisitions, loan repayments, guarantees, assumptions of debt, foreign currency transactions and major disposals not in the ordinary course of its business or that of its subsidiaries.
- The Committee shall periodically review investment and operation performance plans, make recommendations regarding the financial, accounting, actuarial and investment policies, practices and guidelines, tax planning and compliance programmes and provide guidance and advisory recommendations.
- Develop alternative strategies to improve funding and ensure a balance between strategic priorities and resource availability.
- Appraise major equity or other investments, any share repurchase plans or disposals of shareholding interests of more than 5% or take-over action, participation in joint ventures, partnerships or similar initiatives and make recommendations to the Board.
- Annually review the company's dividend policy and make recommendations to the Board on the dividend to be declared.
- In accordance with the Company's policies and practices for the review of contractual obligations as approved by the Board, the committee shall review summaries prepared by management of certain contractual obligations including certain human resources, business process, outsourcing contracts and certain consulting contracts.
- Periodically review major banking, investment advisors, subsidiaries, customer and competitor activities and relationships and the impact of the company's actions on those relationships and the short and long term interests.
- Review with management and the governance committee the company's retirement strategy, gratuity, defined benefit and contributions plans and make recommendations performance and funding of the plan assets.

Corporate Governance Report

Board Governance Committee

The Committee comprise of five Directors, with an independent Director as Chairman. Members of the Committee are:

Dr. Konyinsola Ajayi, SAN	- Chairman
Mr. Uzoma Nwankwo	- Member
Ms. Maryam Bashir	- Member
Mr. Graham Clark	- Member
Engr. Abdullahi Sule	- Member

Responsibilities of the Board Governance Committee:

- Regularly review the Board structure, size and composition and provide recommendations to the Board with regards to any adjustments deemed necessary.
- Regularly review the required mix of skills of the Board, experience and other qualities of the Directors in order to assess the effectiveness of the Board as a whole, its Committees and the contribution of each Director.
- Make recommendations to the Board on the appointment of new Executive and non-executive Directors, including alternate Directors, the composition of the Board generally and ensure that a balance exists between executive and non-executive Directors.
- Identify and nominate candidates for the approval of the Board, to fill Board vacancies as and when they arise. Investigate the eligibility of new Director's for appointment and their backgrounds, along the lines of the approach required for listed companies by the SEC/NSE, prior to their appointment including the determination of the independence or otherwise of a prospective independent Director.
- Recommend Directors who are retiring per the Articles of Association or under the provisions of CAMA to be put forward for re-election at the AGM.
- Establish the general human resources policies including the retirement age, the exit criteria, retirement and termination payments and benefits for executive and Non- executive Directors and Key Officers and review and propose necessary changes of the policies.
- Ensure that a fair and competitive Remuneration Policy which defines the criteria and mechanism for determining levels of remuneration and the frequency for review of such criteria and mechanism is in place. The policy should define a process, if necessary with the assistance of external advisers or professional executive recruitment firms, for the determination of Executive and Non-executive compensation, as well as providing to what extent Executive Directors rewards should be linked to corporate and individual performance.
- Conduct periodic reviews of the organogram, size, composition, effectiveness of the senior management and the human resources policies of the organisation for the Executive Directors and key officers against current industry practice and emplace professional executive recruitment publications for DSR thereby creating a clear understanding of the different methods of recruiting, training, motivating, retaining and remunerating Executive Directors and key officers.
- Determine and recommend the criteria necessary to measure the performance of Directors and the senior executives and the Directors in discharging their functions and responsibilities including setting performance bonuses or incentives.
- Annually evaluate the skills, competences, knowledge and experience required on the Board and all aspects of the Board's structure, composition, responsibilities, processes and roles and make recommendations on the performance

About Us

of individual, committee and Board. This performance evaluation or appraisal may be conducted internally by the governance committee but at least once in three years by an external consultant.

- Ensure that a duly approved trust deed governs the policy and administration of the employee Shares ownership or Incentive scheme and to recommend acceptable changes to the policy or other developments to the Board.
- The Directors' fees should be fixed by the Board and approved by the shareholders in an annual general meeting while the Board of Directors would approve the remuneration of each Executive Director, including the GMD, individually taking into consideration direct relevance of skill and experience to the company at the particular time.
- The Committee should put in place in collaboration with the Company Secretary, induction and continuing education programmes to keep the skills required on the Board at its optimum level and in particular ensure that corporate governance training permeates the organisation.
- Provide the policy and framework for compliance with laws, regulations and principles of corporate governance and to provide the mechanisms for periodic assessment of compliance, including compliance by significant vendors and consultants.
- Monitor changes and proposed changes in laws, regulations and rules affecting the organisation and obtain regular updates from the Legal Counsel or Company secretary regarding compliance matters.
- Communicate with the Board regarding the organisation's policy on ethics, code of conduct and fraud policy as it relates to internal control, financial reporting activities and all disclosures and related party transactions.

- The Committee must put in place a mechanism, whereby the findings of any inspections by regulatory agencies and auditor observations, including investigations of standards, hazards, compliance, misconduct or fraud are considered and acted upon.

Audit/Risk Management Committee

The Committee comprises of seven Directors, the Members of the Committee are:

Mr. Uzoma Nwankwo	- Chairman
Ms. Bennedikter Molokwu	- Member
Dr. Konyinsola Ajayi, SAN	- Member
Mr. Olakunle Alake	- Member
Ms. Maryam Bashir	- Member
Mr. Graham Clark	- Member
Engr. Abdullahi Sule	- Member

Responsibilities of the Audit/Risk Management Committee

Risk assessment and risk management are the responsibility of Dangote Sugar Refinery Plc's management. The committee has an oversight role and in that capacity will receive reports from management concerning the Company's risk management principles, policies, processes and practices so that it can review and report to the Board that:

- Adequate systems are in place for the effective identification and assessment of all areas of potential material business risk
- Adequate policies, processes and procedures have been designed and implemented to manage identified material risks and
- Appropriate action is undertaken to bring the identified material risks within the company's risk tolerance levels.

Actions the committee will undertake to fulfill its duties and responsibilities include the following:

- Ensure the design and implementation of the risk management framework and internal control systems, in conjunction with existing business processes and systems, to manage the Company's material business risk exposures.

Corporate Governance Report

- Monitor the risk profile of the Company against the agreed company risk appetite and risk management framework.
- Ensure the establishment of processes and procedures for the monitoring and evaluation of the Company's risk management systems to assess the effectiveness of those systems in minimizing material risks that may impact adversely on the business objectives of the Company.
- Establish reporting guidelines for management to report to the committee on the effectiveness of the management of the Company's material business risk exposures.
- Evaluate the adequacy and effectiveness of the Company's risk management systems by reviewing the Company's risk registers.
- Review and make recommendations on the strategic direction, objectives and effectiveness of the Company's risk management policies.
- Receive reports from management concerning the implications of new and emerging risks, legislative or regulatory initiatives and changes, organizational change and major initiatives, in order to assess and evaluate the potential impact on the strategy and business objectives of the Company.

Audit Committee

In addition to the Board standing committees, there is the audit committee, which also plays an important role in the Company. The audit committee is made up 6 (six) members, three members of the Board of Directors and 3 members representing the shareholders.

In compliance with the requirement of Corporate Governance practice, a shareholder chairs the committee. Members of the audit

Committee are elected annually at the general meeting. Members of the committee are :

Mr. Segun Olusanya	-
Chairman/Shareholder Representative	
Hadjia Muheebat Dankaka (OON)	-
Shareholder Representative	
Mallam Dahiru Ado	-
Shareholder Representative	
Ms. Bennedikter Molokwu	-Director
Mr. Olakunle Alake	-Director
Dr. Konyinsola Ajayi, SAN	-Director

Responsibilities of the Audit Committee

The Committee carries out all such other functions as are stipulated by the Companies and Allied Matters Act. Cap C20 Laws of the Federal Republic of Nigeria, 2004; in addition to the responsibilities stated below:

- Evaluate DSR's interim and annual financial statements for reasonableness, completeness and accuracy and consistency with information known to committee members and appropriate accounting policies and principles prior to issue and approval by the Board and, with the internal and external auditors review the integrity of DSR's financial reporting process.
- Review significant accounting and reporting issues including complex or unusual transactions, proposed adjustments and areas of judgement involved in the compilation of the company's results under accounting standards or IFRS as well as recent professional and regulatory pronouncements especially their impact on financial statements. The Committee can use their own system to assess appropriateness and conformity with IFRS or relevant accounting standards.
- Review with management, the internal auditors and the external auditors the

results of the audit including resolving any difficulties that were encountered, adjustments and assessing any improved reporting suggestions proposed by them.

- Review with the general counsel the status of legal matters that may have an effect on the financial statements and ensure the financial statements reflect appropriate accounting principles.
- Review annual and interim financial statements prior to filing with regulators to ensure that statements written by the management's concerning their responsibility for the assessment of the effectiveness of the internal control structure and the procedures for financial reporting are correct.
- The Board retains responsibility for implementing recommendations that may arise from the financial reporting process.

Securities Trading Policy

In compliance with the provisions of Section 14 of the Amended Listing Rules of the Nigerian Stock Exchange, 2014, the Directors and Employees of the Company, their immediate families, that is spouse, son, daughter, mother or father, and other insiders as defined under Section 315 of Investments and Securities Act, (ISA) and Rule 110 (3) of the SEC Rules and Regulations, are prohibited from buying or selling shares of the Company during the period stated below, in order to avoid occurrence of insider trading of the stocks of the Company, as defined under the Investments and Securities Act, 2007.

Consequently, and in accordance with Section 14.4 of the same Rules, compliance of the Rules by the Employees and Directors of the Company, will be disclosed in the Company's unaudited quarterly Financial Statements and the Audited Financial Statements.

Closed Period

The closed period shall be at the time of:

- a. Declaration of Financial results (quarterly, half-yearly and annually);
- b. Declaration of Dividends (interim and final);
- c. Issue of Securities by way of Public Offer or Rights or Bonus, etc.;
- d. Any major expansion plans or winning of bid or execution of new projects;
- e. Amalgamation, mergers, takeovers and buy-back;
- f. Disposal of the whole or a substantial part of the undertaking;
- g. Any changes in policies, plans or operations of the Company that are likely; to materially affect the prices of the Securities of the Company;
- h. Disruption of operations due to natural calamities;
- i. Litigation/dispute with a material impact;
- j. Any information which, if disclosed, in the opinion of the person disclosing the same is likely to materially affect the prices of the securities of the Company.

Period of Closure

The period of closure shall be effective 15 (Fifteen days) prior to the date of any meeting of the Board of Directors proposed to be held to consider any of the matters referred to above or the date of circulation of Agenda papers pertaining to any of the matters referred to above, whichever is earlier, up to 24 hours after the sensitive information is submitted to the Exchange. The trading window shall thereafter be opened.

Employees and Directors should inform the Company Secretary in writing of their dealings with the Company's shares on quarterly basis, on or before two weeks to the end of the quarter; and also confirm that they complied with the Company's Securities Trading Policy.

Attendance of Meetings by Members of the Board of Directors/ Board Committees from 1st January, 2014 to 31st December, 2014

Board Of Directors

Aliko Dangote, GCON
Chairman (Non Executive)

Aliko Dangote is the founder and President/CEO, Dangote Group. He is a Business Studies graduate of Al-Azhar University, Cairo, Egypt. For his philanthropy and contributions to the growth of Nigeria's economy, he was awarded: the ZIK Award for professional leadership (1992), the Sir Ahmadu Bello International Award, the Cross River State Roll of Honour Award (2002), the Thisday Newspapers Award for CEO of the Year (2005). His national awards include OON in 2000, CON in 2005 and currently GCON. He occupies various offices in service to the Federal Government of Nigeria.

Graham Clark
Group Managing Director

Mr. Graham Clark is the Group Managing Director of Dangote Sugar. Mr. Clark is an Australian, a Certified Chartered Accountant, with over 30 years' experience in the African Sugar Industry. Mr. Clark was the Managing Director of Ilovo Sugar, the largest sugar company in Africa before he joined Dangote Sugar in November 2013. Prior to joining Ilovo sugar, he was the Finance Director of Lonrho Sugar Corporation, with presence in Malawi, Zambia, Swaziland and Mauritius. Mr. Clark is a fellow of the Australian Institute of Chartered Accounts.

Abdullahi Sule
Dep. Group Managing Director

Engr. Abdullahi Sule has over 30 years' experience in the Oil & Gas, Steel Production, Machine Shop Operations and Sugar industries both in Nigeria and the US. He was the pioneer MD of Sadiq Petroleum Nig. Ltd, MD/CEO of African Petroleum Plc (now Forte Oil), Director for Business Development (Africa) at Osyka Corporation, Houston, Texas and Country Manager (Nigeria) at Tetra Technologies Inc, Houston, Texas. He was the MD/CEO of Dangote Sugar Refinery Plc (2007-2009) and Country Director of Fairport Process Equipment UK (2008-2011) till he was reappointed MD/CEO of DSR Plc in December 2011. He became Deputy Group MD of Dangote Sugar in November 2013. He holds a BSc. in Mechanical Engineering and MSc. in Industrial Technology from Indiana State University, USA.

Sani Dangote
Non-Executive Director

Alhaji Sani Dangote joined in 2007. He has been on the Board of several other companies including Nigerian Textile Mills Plc, Nutra Sweet Limited, Gum Arabic Limited, Dangote Textile Mills Limited, Alsan Insurance Brokers, Dan-Hydro Company Limited, Dansa Food Processing Company Limited and Dangote Farms Limited. He has also been Deputy Chairman of African Gum Arabic Producers Association and President of Lagos Polo Club. He was also appointed as Consul-General of the Romanian Embassy in Nigeria. He is member of several Chambers of Commerce, Fellow of the Chartered Institute of Shipping of Nigeria and President of the Fertilizer Producers and Suppliers Association. He is an alumnus of Harvard Business School, Harvard University.

Board Of Directors

Olakunle Alake

Non-Executive Director

Mr. Olakunle Alake is Fellow of the Institute of Chartered Accountants of Nigeria. He started his career with PriceWaterhouse in September 1984 and joined the Dangote Group in July 1997 as Financial Controller and Head of Strategic Services. He was promoted to the position of Group Strategist/Executive Director in 2001. He received a Bachelor's degree in Civil Engineering from Obafemi Awolowo University, Ile-Ife, in 1983.

Benedikter Molokwu

Independent
Non-Executive Director

Ms. Benedikter Molokwu joined in 2007. She is a Fellow of the Institute of Directors and a member of the Nigerian Bar Association, International Bar Association, International Federation of Women Lawyers and Chartered Institute of Bankers. She received an LLB degree from the University of Nigeria, Nsukka in 1975 and was called to the Nigerian Bar in 1976. She also received a Master's degree in International and Comparative Law from Vrije Universiteit Brussel, Belgium, in 1978.

Konyinsola Ajayi, SAN

Independent
Non-Executive Director

Report of The Directors

The Directors are pleased to submit their report together with the audited financial statements of the Company for the year ended 31st December, 2014. The Company's corporate governance statements forms part of this Director's Report. In the opinion of the Directors, the state of the Company's affairs is satisfactory, and the financial statements presented gives a true and fair view of the state of the Company during the financial year under review.

1. Business Review And Results For The Year

₦'000

The Company's revenue for the year was ₦94,855,203
The profit for the year after taxation was ₦11,635,780

Dangote Sugar Refinery Plc's outlook for 2015 and beyond shows confidently that the company will continue operational existence for the foreseeable future as at the time when the Consolidate Financial Statements were approved.

2. Principal Activities

The Company refines raw sugar into edible sugar and sells refined sugar, at its 1.44million MT/PA Apapa sugar refinery. The company has begun its backward integration project with a 10 year sugar development plan, to produce 1.5 million MT/PA of sugar from locally grown sugarcane. The project has commenced with its acquisition of Savannah Sugar Company Limited (SSCL) at Numan, in Adamawa State and other Green Project sites across Nigeria.

3. Legal Form

The Company was incorporated on the 4th of January, 2005 as a Public Limited Liability Company. DSR shares were listed in the Nigerian Stock Exchange, on the 18th March, 2007, and has since being traded on the NSE.

4. Directors Responsibilities

The Directors are responsible for the preparation of the financial statements, which give a true and fair view of the state of affairs of the Company at the end of each financial year and of the profit or loss for that period, and comply with the provisions of the Companies and Allied Matters Act, C20 Laws of the Federation of Nigeria 2004.

In doing so, the Directors responsibilities include ensuring that:

- a) proper accounting records are maintained;
- b) applicable accounting standards are followed;
- c) suitable accounting policies are adopted and consistently applied;
- d) judgments and estimates made are reasonable and prudent;
- e) the going concern basis is used, unless it is inappropriate to presume that the Company will continue in business and;
- f) Internal control procedures are instituted which as far as is reasonably possible, safeguard the assets, prevent and detect fraud and other irregularities.

6. Corporate Governance

In Dangote Sugar Refinery, our actions and interactions with our consumers, employees, government officials, suppliers, shareholders and other stakeholders reflect our values beliefs and principles.

Our business is largely self-regulated and we pride ourselves as leading our peers in the industry and Nigeria in this regard. In addition to self-regulation, we are committed to conducting business in line with best practice, in accordance with applicable laws and regulations in Nigeria and the requirements of the Nigerian Stock Exchange as well as in compliance with the code of corporate governance in Nigeria.

The Company complied with these corporate governance requirements during the year

under review as set out below:

Board of Directors

The Board of Directors is responsible for the oversight of the business, long-term strategy and objectives, and the oversight of the Company's risks while evaluating and directing the implementation of controls and procedures including, in particular, maintaining a sound system of internal controls to safeguard shareholders' investments and the Company's assets. There are currently Board meetings during each fiscal year.

Strategy and Management

- Input into the development of the long-term objectives and overall commercial strategy for the Company.
- Oversight of the Company's operations.
- Review of performance in the light of the Company's strategy, objectives, business plans and budgets and ensuring that any necessary corrective action is taken.
- Extension of the Company's activities into new business or geographic areas.
- Any decision to cease to operate all or any material part of the Company's business.

Structure and Capital

- Changes relating to the Company's capital structure including reduction of capital, share issues (except under employee share plans) and share buy backs.
- Major changes to the Company's corporate structure.
- Changes to the Company's management and control structure.
- Any changes to the Company's listing or its status as a Plc.

Financial Reporting and Controls

- Approval of preliminary announcements if interim and final results

Report of The Directors

- Approval of the annual report and accounts, including the corporate governance statement
- Approval of the dividend policy
- Declaration of the interim dividend and recommendation of the final dividend
- Approval of any significant changes in accounting policies or practices
- Approval of treasury policies including foreign currency

Internal Controls

Ensuring maintenance of a sound system of internal control and risk management including:

- Receiving reports from the finance and risk Committee in, and reviewing the effectiveness of the Company's risk and control processes to support its strategy and objectives
- Undertaking an annual assessment of these processes through the finance and risk Committee and
- Approving an appropriate statement for inclusion in the report

Contracts

- Major capital projects
- Contracts which are material strategically by reason of size, entered into by the Company in the ordinary course of business, for example, bank borrowings and acquisitions or disposals of fixed assets of amounts above the threshold reserved for Executive Directors under the schedule of limits and authorities
- Major investments including the acquisition or disposal or interest of more than (5) percent in the voting shares of any Company or the making of any takeover offer

Communication

- Approval of resolutions and corresponding documentation to be put forward to shareholders at a general meeting
- Approval of all circulars and listing particulars, approval of routine documents such as periodic circulars about scrip dividend procedures or exercise of conversion rights could be delegated to a Committee
- Approval of press releases concerning matters decided by the Board

Board Membership and other Appointments

Changes to the structure, size and composition of the Board, following recommendations from the Board Governance Committee.

Ensuring adequate succession planning for the Board and senior management following recommendations from the Board Governance Committee.

- Appointments to the Board, following recommendations by the Board Governance Committee.
- Appointment of Non-Executive Directors including independent Directors following recommendations by the Board Governance Committee.
- Membership and Chairmanship of Board Committees
- Continuation in office of Directors at the end of their term of office when they are due to be re-elected by shareholders at the AGM or otherwise as appropriate.

About Us

Operational Review

Corporate Governance

Financial Statements

Report of The Directors

- Appointment or removal of the Company secretary following recommendations by the Board Governance Committee.
- Continuation in office of Non-Executive Directors at any time.
- Appointment, reappointment or removal of the external auditor to be put to shareholders for approval, following the recommendation of the Audit Committee.
- Appointment to Boards of subsidiaries.

Remuneration

- Approval of the remuneration of Directors, Company Secretary and other Senior Executives following recommendation by the Board Governance Committee.
- Approval of the remuneration of the Non-Executive Directors, subject to the articles of association and shareholder approval as appropriate following recommendations by the Board Governance Committee.
- The introduction of new share incentives plans or major changes to existing plans, to be put to shareholders for approval following recommendations by the Board Governance Committee.

Delegation of Authority.

- The division of responsibilities between the chairman and the chief executive, which should be in writing.
- Approval of terms of reference of Board Committees.
- Receiving reports from Board Committees of their activities.

Performance Evaluation Process

- The Board Governance Committee oversees a formal evaluation process to assess the composition and performance of the Board, each Committee, and each individual Director on an annual basis.

The assessment is conducted to ensure the Board, Committees and individual members are effective and productive and to identify opportunities for improvement and skill set needs.

- As part of the process, each member completes a detailed and thorough questionnaire. While results are aggregated and summarized for discussion purposes, individual responses are not attributed to any member and are kept confidential to ensure honest and candid feedback is received. The governance and remuneration Committee reports annually to the full Board on the outcome of its assessment. A Director will not be nominated for re-election unless it is affirmatively determined that he/she is substantially contributing to the overall effectiveness of the Board.

Code of Business Conduct and Code of Governance for Directors

The Company has a code of business which defines the Company's mission within a corporate governance framework. The code is applicable to all employees as well as Directors and business partners of the Company in business conduct. In our bid to continue to create awareness on the essence and importance of compliance and ethics to every aspect of the Company's operations and to bring compliance front of the mind, the Company emphasizes on the importance of compliance and has put in measures to ensure that the laid out procedures are followed at all times.

7. Substantial Interest In Shares

The Registrar has advised that according to the Register of Members on 31st December, 2014, apart from Dangote Industries Limited with 8,119,200,00 ordinary shares of 50k each and Alhaji Aliko Dangote with 653,095,014 ordinary shares of 50k each, no other shareholder held more than 5% of the issued share capital of the Company.

Report of The Directors

8. Fixed Assets

Movements in fixed assets during the year are shown in Note 14 to the Accounts. In the opinion of the Directors, the market value of the Company's properties is not less than the value shown in the accounts.

Report of The Directors

14. Human Resources

1. Employment and Employees

The Company reviews its employment policy in line with the needs of business. We remain an equal opportunities employer, with employment policies that are not discriminatory to gender, race, religion or disability to our existing and potential employees. We are focused on attracting and retaining outstanding talents in the Company, to add value to the company and ensure all stipulated high performance indices are met.

2. Health, Safety and Environment

The Company continuously strives to improve its operations to ensure a safe and conducive working environment. It maintains a high standard of hygiene in all its premises through sanitation practices and the regular fumigation exercises have been further strengthened by the installation of pest and rodent control gadgets. Fire-fighting prevention and drills are carried out periodically at all our facilities, while fire-fighting equipment are installed in our offices and plants.

Health, Safety and Environment workshops amongst others are organized for all employees with a broad focus on good housekeeping to ensure a safe working environment. The company provides fully paid nutritionally balanced meals for staff in the canteen. Regularly, the Company updates its staff on current issues as they relate to diseases including HIV/AIDS, High Blood Pressure and other serious diseases through health talks, health assessments and information sharing.

3. Employee Development

The Company continues to place premium on its human capital development for improved efficiency of the business and maintenance of a strategic manpower advantage over competition. During the year under review, the Company invested in the training and development of its workforce through in-

house and external training programmes locally and overseas across all job functions, while continuously encouraging employees to develop themselves to their full potentials. Employees are carried along on developments in the Company through quarterly management briefings and provision of information through the Corporate Communications and Human Resources/Admin departments

4. Retirement Benefits

In line with the provisions of the Pension Reform Act of 2014, the Company operates the uniform contributory pension scheme for all employees, independent of its finances. The fund is managed on behalf of the employees by Pension Fund Administrators. The scheme is funded by the employees and DSR's contributions of 10% each, of the employee's monthly basic, housing and transport allowances, remitted to the employee's choice Pension Fund Administrator, on a monthly basis.

15. Audit Committee

The Company has an audit Committee set up in accordance with the provisions of Section 359(3) of the Companies and Allied Matters Act Cap. C20 Laws of the Federation of Nigeria, 2004. It comprises an equal number of Non-Executive Directors and ordinary shareholders elected at the Annual General Meetings. It evaluates annually, the independence and performance of external auditors, receives the planning, interim and final audit presentation from the external auditors and also reviews with management and the external auditors the annual audited financial statements before its submission to the Board. During the year, the Committee approved the audit plan and scope of the external auditors for the financial year and reviewed quarterly and half yearly financial results before presentation to the Board. The Committee also received reports from management on the accounting system and internal controls framework of the Company. The members of the statutory audit

Statement of Director's Responsibilities in Relation to the Financial Statements for the Year Ended 31st December, 2014

The Directors of Dangote Sugar Refinery Plc are responsible for the preparation of the financial statements that present fairly the financial position of the Company as at 31st December, 2013, and the results of its operations, cash flows and changes in equity for the year then ended, in compliance with International Financial Reporting Standards ("IFRS").

In preparing the financial statements, the Directors are responsible for:

- properly selecting and applying accounting policies;
- presenting information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- providing additional disclosures when compliance with the specific requirements in IFRSs are insufficient, to enable users to understand the impact of particular transactions, and conditions on the Group's financial position and financial performance; and
- making an assessment of the Group's ability to continue as a going concern.

The Directors are responsible for:

- designing, implementing and maintaining an effective and sound system of internal controls throughout the Company;
- maintaining adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company, and which enable them to ensure that the financial statements of the Company comply with IFRS;
- maintaining statutory accounting records in compliance with the legislation of Nigeria and IFRS;
- taking such steps as are reasonably available to them to safeguard the assets of the Company; and preventing and detecting fraud and other irregularities.

The financial statements of the Company for the year ended 31st December, 2014 were approved by Directors on the 31st day of March, 2015.

Statement of Management's Responsibilities for the Preparation and Approval of the Financial Statements for the Year Ended 31st December, 2014

In accordance with the provisions of the Companies and Allied Matters Act of Nigeria, the Directors are responsible for the preparation of annual financial statements, which give a true and fair view of the state of affairs of their Company at the end of the financial period and of their profit or loss for the year ended. Their responsibilities among others include ensuring that:

- I. The Company keeps proper accounting records that disclose, with reasonable accuracy, the financial position of the Company and comply with requirements of the Companies and Allied Matters Act of Nigeria;
- II. Appropriate and adequate internal controls are established to safeguard its assets, prevent and detect fraud and other irregularities;
- III. The Company prepares its financial statements using suitable accounting policies supported by reasonable and prudent judgments and estimates that are consistently applied; and
- IV. It is appropriate for the financial statements to be prepared on a going concern basis

The Directors accept responsibility for the annual financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates in conformity with International Financial Reporting Standard (IFRS) and the requirements of the Companies and Allied Matters Act of Nigeria.

The Directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Company and of its profit.

The Directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statements, as well as adequate systems internal financial control.

Nothing has come to the attention of the Directors to indicate that the Company will not remain a going concern for at least twelve months from the date of this statement.

Signed on behalf of the Management of the Company by:

31st March, 2015

31st March, 2015

Statement of Directors' Responsibilities for the Preparation and Approval of the Financial Statements

The Directors of **Dangote Sugar Refinery Plc** are responsible for the preparation of the consolidated financial statements that give a true and fair view of the financial position of the Group and Company as at 31st December, 2014, and the results of its operations, cash flows and changes in equity for the period ended, in compliance with International Financial Reporting Standards ("IFRS") and in the manner required by the Companies and Allied Matters Act of Nigeria, the Financial Reporting Council of Nigeria Act, 2011.

In preparing the consolidated financial statements, the Directors are responsible for:

- properly selecting and applying accounting policies;
- presenting information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- providing additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Group and Company's financial position and financial performance;
- making an assessment of the Group's ability to continue as a going concern.

The Directors are responsible for:

- designing, implementing and maintaining an effective and sound system of internal controls throughout the Group and Company;
- maintaining adequate accounting records that are sufficient to show and explain the Group's and company's transactions and disclose with reasonable accuracy at any time the financial position of the Group and Company, and which enable them to ensure that the financial statements of the Group and Company comply with IFRS;
- maintaining statutory accounting records in compliance with the legislation of Nigeria and IFRS; taking such steps as are reasonably available to them to safeguard the assets of the Group and Company; and
- preventing and detecting fraud and other irregularities.

Going Concern:

The Directors have made an assessment of the Group's and Company's ability to continue as a going concern and have no reason to believe the Group and Company will not remain a going concern in the year ahead.

The consolidated financial statements of the Group and Company for the year ended 31st December, 2014 were approved by directors on 31st March, 2015.

Report Of The Audit Committee

To the Members of Dangote Sugar Refinery Plc for the year ended 31st December, 2014

In compliance with Section 359(6) of the Companies and Allied Matters Act, Cap C20 LFN, 2004, we have:

- a. reviewed the scope and planning of the audit requirements;
- b. reviewed the external Auditors' Memorandum of Recommendations on Accounting Policies and Internal Controls, together with Management Responses;
- c. ascertained that the accounting and reporting policies of the Company for the year ended 31st December, 2014 are in accordance with legal requirements and agreed ethical practices.

In our opinion, the scope and planning of the audit for the year ended 31st December, 2014 were adequate and the Management Responses to the Auditors findings were satisfactory.

Report of the Independent Auditors to the Members of Dangote Sugar Refinery Plc

Report on the Financial Statements

We have audited the accompanying consolidated and separate financial statements of **Dangote Sugar Refinery Plc** ("the Company") and its subsidiary (together referred to as "the Group") which comprise the consolidated and separate statements of financial position as at 31st December 2014, the consolidated and separate statements of profit or loss and other comprehensive income, consolidated and separate statements of changes in equity, consolidated and separate statements of cash flows for the year then ended, a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Financial Statements

The Directors are responsible for the preparation and fair presentation of these consolidated and separate financial statements in accordance with the Companies and Allied Matters Act CAP C20 LFN 2004, the Financial Reporting Council of Nigeria Act, 2011, the International Financial Reporting Standards and for such internal control as the Directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated and separate financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated and separate financial statements give a true and fair view of the financial position of **Dangote Sugar Refinery Plc and its Subsidiary** as at 31st December, 2014 and of its financial performance and cash flows for the year then ended in accordance with the International Financial Reporting Standards, the Companies and Allied Matters Act CAP C20 LFN 2004 and the Financial Reporting Council of Nigeria Act, 2011.

Other reporting responsibilities

In accordance with the Sixth Schedule of Companies and Allied Matters Act CAP C20 LFN 2004 we expressly state that:

- i) We have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit.
- ii) The Group has kept proper books of account, so far as appears from our examination of those books.
- iii) The consolidated and separate statements of financial position and the consolidated and separate statements of profit or loss and other comprehensive income are in agreement with the books of account.

Notes to the Consolidated and Separate Financial Statements

1. General Information

Dangote Sugar Refinery Plc (the Company) was incorporated as a public limited liability company on 4th January, 2005 and commenced operations on 1st January, 2006. The Group became quoted on the Nigerian Stock.

Exchange in March, 2007 and its current shareholding is 68% by Dangote Industries Limited and 32% by the Nigerian public.

The ultimate controlling party is Dangote Industries Limited.

The registered address of the Group is located at GDNL Administrative Building, Terminal E, Shed 20 NPA Apapa Wharf Complex, Apapa, Lagos.

The consolidated financial statements of the Group for the year ended 31st December, 2014 comprises the Group and its subsidiary - Savannah Sugar Company Limited.

1.1. The Principal Activity

The principal activity of the Group is the refining of raw sugar into edible sugar and the selling of refined sugar. The Group's products are sold through distributors across the country.

1.2. Going Concern Status

The Group has consistently been making profits. The Directors believe that there is no intention or threat from any party to curtail significantly its line of business in the foreseeable future. Thus, these financial statements are prepared on a going concern basis.

1.3. Operating Environment

Emerging markets such as Nigeria are subject to different risks than more developed markets, including economic, political and social, and legal legislative risks. As has happened in the past, actual or perceived financial problems or an increase in the perceived risks associated with investing in emerging economies could adversely affect the investment climate in Nigeria and the country's economy in general. The global financial system continues to exhibit signs of deep stress and many economies around the world are experiencing lesser or no growth than in prior years. These conditions could slow or disrupt Nigeria's economy, adversely affecting

the Group's access to capital and cost of capital for the Group and more generally, its business, results of operation, financial condition and prospects.

2. Financial Period

These financial statements cover the financial year from 1st January, 2014 to 31st December, 2014, with restated comparative for year end 1st January, 2013 to 31st December, 2013.

3. Application of new and revised International Financial Reporting Standards (IFRSs)

3.1 New and revised IFRSs/IFRICs affecting amounts reported and/or disclosures in this financial statements

In the current year, the Group has applied a number of new and revised IFRSs issued by the International Accounting Standards Board (IASB) that are mandatorily effective for an accounting period that begins on or after 1st January, 2014.

Amendments to IFRS 10, IFRS 12 and IAS 27 Investment Entities

The Group has applied the amendments to IFRS 10, IFRS 12 and IAS 27 Investment Entities for the first time in the current year. The amendments to IFRS 10 define an investment entity and require a reporting entity that meets the definition of an investment entity not to consolidate its subsidiaries but instead to measure its subsidiaries at fair value through profit or loss in its consolidated and separate financial statements. To qualify as an investment entity, a reporting entity is required to:

- obtain funds from one or more investors for the purpose of providing them with investment management services; commit to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- measure and evaluate performance of substantially all of its investments on a fair value basis.

Consequential amendments have been made to IFRS 12 and IAS 27 to introduce new disclosure requirements for investment entities.

About Us

Operational Review

Corporate Governance

Financial Statements

Notes to the Consolidated and Separate Financial Statements

As the Company is not an investment entity (assessed based on the criteria set out in IFRS 10 as at 1st January, 2014), the application of the amendments has had no impact on the disclosures or the amounts recognised in the Group's consolidated financial statements.

Amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities

The Group has applied the amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities for the first time in the current year. The amendments to IAS 32 clarify the requirements relating to the offset of financial assets and financial liabilities. Specifically, the amendments clarify the meaning of 'currently has a legally enforceable right of set-off' and 'simultaneous realisation and settlement'.

The amendments have been applied retrospectively. As the Group does not have any financial assets and financial liabilities that qualify for offset, the application of the amendments has had no impact on the disclosures or on the amounts recognised in the Group's consolidated financial statements. The Group has assessed whether certain of its financial assets and financial liabilities qualify for offset based on the criteria set out in the amendments and concluded that the application of the amendments has had no impact on the amounts recognised in the Group's consolidated financial statements.

Amendments to IAS 36 Recoverable Amount Disclosures for Non-Financial Assets

The Group has applied the amendments to IAS 36 Recoverable Amount Disclosures for Non-Financial Assets for the first time in the current year. The amendments to IAS 36 remove the requirement to disclose the recoverable amount of a cash-generating unit (CGU) to which goodwill or other intangible assets with indefinite useful lives had been allocated when there has been no impairment or reversal of impairment of the related CGU. Furthermore, the amendments introduce additional disclosure requirements applicable to when the recoverable amount of an asset or a CGU is measured at fair value less costs of disposal. These new disclosures include the fair value hierarchy, key assumptions and valuation techniques used which are in line with the

disclosure required by IFRS 13 Fair Value Measurements.

The application of these amendments has had no material impact on the disclosures in the Group's consolidated financial statements.

Amendments to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting

The Group has applied the amendments to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting for the first time in the current year. The amendments to IAS 39 provide relief from the requirement to discontinue hedge accounting when a derivative designated as a hedging instrument is notated under certain circumstances. The amendments also clarify that any change to the fair value of the derivative designated as a hedging instrument arising from the novation should be included in the assessment and measurement of hedge effectiveness.

The amendments have been applied retrospectively. As the Group does not have any derivatives that are subject to novation, the application of these amendments has had no impact on the disclosures or on the amounts recognised in the Group's consolidated financial statements.

IFRIC 21 Levies

The Group has applied IFRIC 21 Levies for the first time in the current year. IFRIC 21 addresses the issue as to when to recognise a liability to pay a levy imposed by a government. The Interpretation defines a levy, and specifies that the obligating event that gives rise to the liability is the activity that triggers the payment of the levy, as identified by legislation. The Interpretation provides guidance on how different levy arrangements should be accounted for, in particular, it clarifies that neither economic compulsion nor the going concern basis of financial statements preparation implies that an entity has a present obligation to pay a levy that will be triggered by operating in a future period.

IFRIC 21 has been applied retrospectively. The application of this Interpretation has had no material impact on the disclosures or on the amounts recognised in the Group's consolidated financial statements.

Notes to the Consolidated and Separate Financial Statements

3.2 New and revised IFRSs in issue but not yet effective

The Group has not applied the following new and revised IFRSs that have been issued but are not yet effective:

IFRS 9
 IFRS 15
 Amendments to IFRS 11
 Amendments to IAS 16 and IAS 38
 Amendments to IAS 16 and IAS 41
 Amendments to IAS 19
 Amendments to IFRSs
 Amendments to IFRSs
 Financial Instruments 5
 Revenue from Contracts with Customers 4
 Accounting for Acquisitions of Interests in Joint Operations 3
 Clarification of Acceptable Methods of Depreciation and Amortisation 3
 Agriculture: Bearer Plants 3
 Defined Benefit Plans: Employee Contributions 1
 Annual Improvements to IFRSs 2010-2012 Cycle 2

Annual Improvements to IFRSs 2011-2013 Cycle 1

- 1 Effective for annual periods beginning on or after 1st July, 2014, with earlier application permitted.
- 2 Effective for annual periods beginning on or after 1st July, 2014, with limited exceptions. Earlier application is permitted.
- 3 Effective for annual periods beginning on or after 1st January, 2016, with earlier application permitted.
- 4 Effective for annual periods beginning on or after 1st January, 2017, with earlier application permitted.
- 5 Effective for annual periods beginning on or after 1st January, 2018, with earlier application permitted.

IFRS 9 Financial Instruments

IFRS 9 issued in November 2009 introduced new requirements for the classification and measurement of financial assets. IFRS 9 was subsequently amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9

was issued in July, 2014 mainly to include

- a) impairment requirements for financial assets and
- b) limited amendments to the classification and measurement requirements by introducing a 'fair value through other comprehensive income' (FVTOCI) measurement category for certain simple debt instruments.

Key requirements of IFRS 9:

All recognised financial assets that are within the scope of IAS 39 Financial Instruments: Recognition and Measurement are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.

With regard to the measurement of financial liabilities designated as at fair value through profit or loss, IFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Under IAS 39, the

About Us

Operational Review

Corporate Governance

Financial Statements

Notes to the Consolidated and Separate Financial Statements

entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss is presented in profit or loss.

In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The new general hedge accounting requirements retain the three types of hedge accounting mechanisms currently available in IAS 39. Under IFRS 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an 'economic relationship'. Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity's risk management activities have also been introduced.

The directors anticipate that the application of IFRS 9 in the future may have a material impact on amounts reported in respect of the Group's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of the effect of IFRS 9 until the Group undertakes a detailed review.

IFRS 15 Revenue from Contracts with Customers

In May 2014, IFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and the related Interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

Under IFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

The Directors do not anticipate that the application of IFRS 15 will have a material impact on the Group's consolidated financial statements.

Amendments to IFRS 11 Accounting for Acquisitions of Interests in Joint Operations

The amendments to IFRS 11 provide guidance on how to account for the acquisition of a joint operation that constitutes business as defined in IFRS 3 Business Combinations. Specifically, the amendments state that the relevant principles on accounting for business combinations in IFRS 3 and other standards (e.g. IAS 36 Impairment of Assets regarding impairment testing of a cash-generating unit to which goodwill on acquisition of a joint operation has been allocated) should be applied. The same requirements should be applied to the formation of a joint operation if and only if an existing business is contributed to the joint operation by one of the parties that participate in the joint operation.

A joint operator is also required to disclose the relevant information required by IFRS 3 and other standards for business combinations.

Notes to the Consolidated and Separate Financial Statements

The amendments to IFRS 11 apply prospectively for annual periods beginning on or after 1 January 2016. The directors do not anticipate that the application of these amendments to IFRS 11 will have a material impact on the Group's consolidated financial statements.

Amendments to IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortisation

The amendments to IAS 16 prohibit entities from using a revenue-based depreciation method for items of property, plant and equipment. The amendments to IAS 38 introduce a rebuttable presumption that revenue is not an appropriate basis for amortisation of an intangible asset. This presumption can only be rebutted in the following two limited circumstances:

- a) when the intangible asset is expressed as a measure of revenue; or
- b) when it can be demonstrated that revenue and consumption of the economic benefits of the intangible asset are highly correlated.

The amendments apply prospectively for annual periods beginning on or after 1st January, 2016. Currently, the Group uses the straight-line method for depreciation and amortisation for its property, plant and equipment, and intangible assets respectively. The Directors believe that the straight-line method is the most appropriate method to reflect the consumption of economic benefits inherent in the respective assets and accordingly, the directors do not anticipate that the application of these amendments to IAS 16 and IAS 38 will have a material impact on the Group's consolidated financial statements.

Amendments to IAS 16 and IAS 41 Agriculture: Bearer Plants

The amendments to IAS 16 and IAS 41 define a bearer plant and require biological assets that meet the definition of a bearer plant to be accounted for as property, plant and equipment in accordance with IAS 16, instead of IAS 41. The produce growing on bearer plants continues to be accounted for in accordance with IAS 41.

The Directors do not anticipate that the application of these amendments to IAS 16 and IAS 41 will have a material impact on the Group's consolidated financial statements as the Group is not engaged in agricultural activities.

Amendments to IAS 19 Defined Benefit Plans: Employee Contributions

The amendments to IAS 19 clarify how an entity should account for contributions made by employees or third parties to defined benefit plans, based on whether those contributions are dependent on the number of years of service provided by the employee.

For contributions that are independent of the number of years of service, the entity may either recognise the contributions as a reduction in the service cost in the period in which the related service is rendered, or to attribute them to the employees' periods of service using the projected unit credit method; whereas for contributions that are dependent on the number of years of service, the entity is required to attribute them to the employees' periods of service.

The Directors do not anticipate that the application of these amendments to IAS 19 will have a significant impact on the Group's consolidated financial statements.

Annual Improvements to IFRSs 2010-2012 Cycle.

The Annual Improvements to IFRSs 2010-2012 Cycle include a number of amendments to various IFRSs, which are summarised below.

The amendments to IFRS 2

- (i) change the definitions of 'vesting condition' and 'market condition'; and
- (ii) add definitions for 'performance condition' and 'service condition' which were previously included within the definition of 'vesting condition'. The amendments to IFRS 2 are effective for share-based payment transactions for which the grant date is on or after 1st July, 2014.

The amendments to IFRS 3 clarify that contingent consideration that is classified as an asset or a liability should be measured at fair value at each reporting date, irrespective of whether the contingent consideration is a financial instrument within the scope of IFRS 9 or IAS 39 or a non-financial asset or liability. Changes in fair value (other than measurement period adjustments) should be recognised in profit or loss. The amendments to IFRS 3 are

About Us

Operational Review

Corporate Governance

Financial Statements

Notes to the Consolidated and Separate Financial Statements

effective for business combinations for which the acquisition date is on or after 1st July, 2014.

The amendments to IFRS 8

- (i) require an entity to disclose the judgements made by management in applying the aggregation criteria to operating segments, including a description of the operating segments aggregated and the economic indicators assessed in determining whether the operating segments have 'similar economic characteristics'; and
- (ii) clarify that a reconciliation of the total of the reportable segments' assets to the entity's assets should only be provided if the segment assets are regularly provided to the chief operating decision-maker.

The amendments to the basis for conclusions of IFRS 13 clarify that the issue of IFRS 13 and consequential amendments to IAS 39 and IFRS 9 did not remove the ability to measure short-term receivables and payables with no stated interest rate at their invoice amounts without discounting, if the effect of discounting is immaterial. As the amendments do not contain any effective date, they are considered to be immediately effective.

3. Application of New and Revised International Financial Reporting Standards (IFRSs)

The amendments to IAS 16 and IAS 38 remove perceived inconsistencies in the accounting for accumulated depreciation/amortisation when an item of property, plant and equipment or an intangible asset is revalued. The amended standards clarify that the gross carrying amount is adjusted in a manner consistent with the revaluation of the carrying amount of the asset and that accumulated depreciation/amortisation is the difference between the gross carrying amount and the carrying amount after taking into account accumulated impairment losses.

The amendments to IAS 24 clarify that a management entity providing key management personnel services to a reporting entity is a related party of the reporting entity. Consequently, the reporting entity should disclose as related party transactions the amounts incurred for the service paid or payable

to the management entity for the provision of key management personnel services. However, disclosure of the components of such compensation is not required.

The Directors do not anticipate that the application of these amendments will have a significant impact on the Group's consolidated financial statements.

Annual Improvements to IFRSs 2011-2013 Cycle

The Annual Improvements to IFRSs 2011-2013 Cycle include a number of amendments to various IFRSs, which are summarised below.

The amendments to IFRS 3 clarify that the standard does not apply to the accounting for the formation of all types of joint arrangement in the financial statements of the joint arrangement itself.

The amendments to IFRS 13 clarify that the scope of the portfolio exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis includes all contracts that are within the scope of, and accounted for in accordance with, IAS 39 or IFRS 9, even if those contracts do not meet the definitions of financial assets or financial liabilities within IAS 32.

The amendments to IAS 40 clarify that IAS 40 and IFRS 3 are not mutually exclusive and application of both standards may be required. Consequently, an entity acquiring investment property must determine whether:

- (a) the property meets the definition of investment property in terms of IAS 40; and
- (b) the transaction meets the definition of a business combination under IFRS 3.

The Directors do not anticipate that the application of these amendments will have a significant impact on the Group's consolidated financial statements.

4. Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Notes to the Consolidated and Separate Financial Statements

4.1 Statement of Compliance

These consolidated and separate financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and Interpretations issued by the International Financial Reporting Interpretations Committee of IASB (together "IFRS") that are effective at 31st December, 2014 and requirements of the Companies and Allied Matters Act (CAMA) of Nigeria and the Financial Reporting Council (FRC) Act. 2011 of Nigeria.

4.2. Basis of Preparation

The consolidated and separate financial statements have been prepared on the historical cost basis except for the revaluation of certain financial instruments. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

The principal accounting policies are set out below:

4.3. Subsidiaries

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The results of subsidiaries acquired or disposed of during the year are included in the Group statement of comprehensive income from the effective date of acquisition or up to the effective date of disposal, as appropriate. Total comprehensive income of subsidiaries is attributed to the owners' of the Company and to the non-controlling interests even if this results in the non-controlling interest having a deficit balance.

In the Company's separate financial statements, investments in subsidiaries are carried at cost less any impairment that has been recognised in profit or loss.

4.4. Transactions Eliminated on Consolidation

Inter-Company transactions, balances and any gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated but to the extent that there is no evidence of impairment.

4.5. Non-controlling Interest

Non-controlling interest is the equity in a subsidiary not attributable, directly or indirectly, to a parent company and is presented separately in the consolidated statement of profit or loss, in the consolidated statement of comprehensive income and within equity in the consolidated statement of financial position. Total comprehensive income attributable to non-controlling interests is presented on the "Non-controlling interest" in the statement of financial position, even if it can create negative non-controlling interests.

Changes in the ownership interest of a subsidiary that do not result in loss of control are accounted for as an equity transaction. Consequently, if Company acquires or partially disposes of a non-controlling interest in a subsidiary, without losing control, any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity.

4.6 Acquisition of Entities Under Common Control

Business combinations arising from transfers of interests in entities that are under the control of the shareholder that controls the Group are accounted prospectively as of the date that

About Us

Operational Review

Corporate Governance

Financial Statements

Notes to the Consolidated and Separate Financial Statements

transfer of interest was effected. The assets and liabilities acquired are recognised at the carrying amounts recognised previously in the Group controlling shareholder's consolidated financial statements. The difference between the consideration paid and the net assets acquired is accounted for directly in equity.

4.7 Functional and Presentation Currency

These financial statements are presented in Naira, which is the Group's functional currency. All financial information presented in naira has been rounded to the nearest thousand.

4.8 Revenue Recognition

Revenue is derived principally from the sale of goods and is measured at the fair value of consideration received or receivable, after deducting discounts, volume rebates, value added tax and any estimated customer returns. Sales are stated at their invoiced amount which is net of value added taxes and discounts.

Sale of Goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Specifically, revenue from the sale of goods is recognised when goods are delivered (or collected, if sold under self-collection terms) and legal title is passed. Amount relating to shipping and handling whether included as part of sales is billed separately is recorded as revenue and cost incurred for shipping and handling are classified under selling and distribution expenses.

4.9 Interest Income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of revenue can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

4.10 Pensions and other Post-employment Benefits

The Group operates a defined contribution based retirement benefit scheme for its staff, in accordance with the amended Pension Reform Act of 2004 with employee contributing 8% and the employer contributing 10% each of the employee's relevant emoluments. Payments to defined contribution retirement benefit plans are recognised as an expense in statement of profit or loss when employees have rendered the service entitling them to the contributions.

4.11 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

4.11.1 Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statements of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current income tax is the expected amount of income tax payable on the taxable profit for the year determined in accordance with the Companies Income Tax Act (CITA) using statutory tax rates at the reporting date. Education tax is assessed at 2% of the assessable profits.

Notes to the Consolidated and Separate Financial Statements

4.11.2 Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences.

Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net Current and deferred tax are recognised in profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are

recognised in other comprehensive income or directly in equity respectively. Where current tax and deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

4.12 Property, plant and equipment

i. Recognition and Measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Fixed assets under construction are disclosed as capital work-in-progress. The cost of construction recognised includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and borrowing costs on qualifying assets.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of the equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised in the statement of comprehensive income.

ii. Subsequent Costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred.

About Us

Operational Review

Corporate Governance

Financial Statements

Notes to the Consolidated and Separate Financial Statements

Depreciation is calculated on the depreciable amount, which is the cost of an asset, or other amount Working Draft substituted for cost, less its residual value.

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment which reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term in which case the assets are depreciated over the useful life.

The estimated useful lives for the current and comparative periods are as follows:

Buildings	– 50 years
Plant and Machinery	– 15 years
Motor Vehicles	– 4 years
Computer Equipment	– 3 years
Tools and Equipment	– 4 years
Furniture and Equipment	– 5 years
Freehold land is not depreciated.	

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate. Capital work-in-progress is not depreciated. The attributable cost of each asset is transferred to the relevant asset category immediately the asset is available for use and depreciated accordingly.

Properties in the course of construction for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. Cost includes Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

4.12 Property, Plant and Equipment

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate

accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

4.13 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Operating lease payments are recognised as an expense on a straight line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Where there are no agreed lease terms, rent payable is recognised as incurred.

4.14 Intangible Assets

Intangible assets acquired separately Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Derecognition of Intangible Assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses

Notes to the Consolidated and Separate Financial Statements

arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognised in profit or loss when the asset is derecognised.

4.15 Impairment of Tangible and Intangible assets other than Goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

4.15 Impairment of Tangible and Intangible Assets other than Goodwill

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or

cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

4.16 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of engineering spares and consumable stock is determined on a first in first out basis. Cost of other stock (Raw materials, packaging materials, work in progress and finished goods) is determined on the basis of standard costs adjusted for variances. Standard costs are periodically reviewed to approximate actual costs.

Goods in transit are valued at the invoice price. Cost of inventory includes purchase cost, conversion cost (materials, labour and overhead) and other costs incurred to bring inventory to its present location and condition. Finished goods, which include direct labour and factory overheads, are valued at standard cost adjusted at year-end on an actual cost basis.

Costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventories by the method most appropriate to the particular class of inventory, with the majority being valued on an average cost basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

4.17 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation (when the time value of money is material).

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where

About Us

Operational Review

Corporate Governance

Financial Statements

Notes to the Consolidated and Separate Financial Statements

a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

4.17.1 Onerous Contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

4.17.2 Environmental Costs

Costs incurred that result in future economic benefits, such as extending useful lives, increasing capacity or safety, and those costs incurred to mitigate or prevent future environmental contamination are capitalized. When the Group's management determine that it is probable that a liability for the future remediation cost is recorded as a provision without contingent insurance recoveries being offset (only virtually certain insurance recoveries are recognized as an asset on the statement of financial position). When we do not have a reliable reversal time schedule or when the effect of the passage of time is not significant, the provision is calculated based on undiscounted cash flows.

Environmental costs, which are not included above, are expensed as incurred.

4.18 Financial Instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction cost that are directly attributable to the acquisition or issue of the financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are

added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial Assets

Financial assets are classified into the following specified categories: financial assets at fair value through profit or loss (FVTPL), 'held-to-maturity' investments, available-for-sale (AFS) financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular purchases or sales of financial assets are recognised and derecognized on a trade date basis. Regular purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place. The Group's financial assets comprise other loans and receivables.

Effective Interest Method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and other receivables) are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Notes to the Consolidated and Separate Financial Statements

Impairment of Financial Assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of Working Draft each reporting period. Financial assets are considered impaired when there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For all categories of financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty, or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- It is becoming probable that the owner will enter bankruptcy or financial re-organisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 30 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate

of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

Derecognition of Financial Assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

4.19 Cash and Cash Equivalents

Cash and cash equivalents consist of cash, highly liquid investments and cash equivalents which are not subject to significant changes in value and with an original maturity date of generally less than three months from the time of purchase.

Corporate Governance

Financial Statements

Notes to the Consolidated and Separate Financial Statements

4.20 Financial Liabilities and Equity Instruments Issued by the Group

Classification as debt or equity

Debts and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Incremental costs directly attributable to the issue of ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

4.20 Financial Liabilities and Equity Instruments Issued by the Group

Financial Liabilities

Financial Liabilities are classified as either financial liabilities, at fair value through profit or loss (FVTPL) or other liabilities. The Group only operates the category of other financial liability.

Other Financial Liabilities

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly estimates future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate), a shorter period, to the net carrying amount on initial recognition.

Derecognition of Financial Liabilities

The Group derecognises financial liabilities

when, and only when the Group's obligations are discharged, cancelled, or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid, and payable is recognised in profit or loss.

4.21 Earnings per Share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held, if any. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, if any, for the effects of all dilutive potential ordinary shares.

4.22 Foreign Currency Transactions and Translation

Items included in the financial statements of each of the Group are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The financial statements are presented in Naira, which is the Group's functional and presentation currency.

4.22a Foreign Currency Transactions and Translation

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of profit or loss and other comprehensive income.

Non-monetary assets and liabilities in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the transaction date and are not restated.

Non-monetary assets and liabilities denominated in foreign currencies that are

Notes to the Consolidated and Separate Financial Statements

stated at fair value are translated to the functional currency at foreign exchange rates prevailing at the dates the fair value was determined and are not restated.

4.23 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

4.25 Segment information

Information reported to the Chief Operating decision maker of the Group for the purposes of resource allocation and assessment of segment performance focuses on its sole product, refined sugar based on different geographical location. Segment reporting has been prepared based on the geographical information of the group

5. Critical accounting judgements and key sources of estimation uncertainty

In the application of the group's significant accounting policies, described in note 4, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant.

Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

5.1 Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see note 5.2 below), that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

The key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

5.1.0 Revenue Recognition

In recognising revenue, critical judgement is made with respect to the mode of delivery. Where the customer opts to make personal arrangement to take delivery of goods by bringing his own truck, revenue is recognised as soon as the truck is loaded and a waybill is generated. However, where the customer opts for delivery to be made using DSR trucks, revenue is recognised only when the goods are delivered at the address provided and receipt of same is acknowledged on the waybill.

5.1.1 Allowance for credit losses

The Group periodically assesses its trade receivables for probability of credit losses. Management considers several factors including past credit record, current financial position and credibility of management, judgement is exercised in determining the allowances made for credit losses.

Provisions are made for receivables that have been outstanding for 365 days, in respect of which there is no firm commitment to pay by the customer.

Furthermore, all balances are reviewed for evidence of impairment and provided against once recovery is doubtful. These assessments are subjective and involve a significant element of judgement by management on the ultimate recoverability of amounts receivable.

5.1.2 Fair values of biological assets

The fair value of the biological asset is derived using a replacement cost approach.

About Us

Operational Review

Corporate Governance

Financial Statements

Notes to the Consolidated and Separate Financial Statements

Management uses estimates for the costs to replace the biological asset by segmenting the assets into their various life circles less expected costs to produce and sell the sugar and molasses, which are determined by considering historical actual costs incurred on a per hector basis. The estimated selling price and costs are subject to fluctuations based on the timing of prevailing growing conditions economic and market conditions as obtained from the various units directly involved in the sales and biological transformation of the assets.

5.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

5.2.1 Useful Life of Property, Plant and equipment

The Group reviewed and revised the estimated

useful lives of its property, plant and equipment on transition to IFRS on 1 January, 2011, and under IFRS, has reviewed them annually at each reporting date. Useful lives are estimated based on the engineer's report, as at each reporting date. Some of the factors considered include the current service potential of the assets, potential cost of repairs and maintenance.

There is a degree of subjective judgment in such estimation which has a resultant impact on profit and total comprehensive income for the year.

5.2.2 Valuation of Deferred Tax

The recognition of deferred tax assets requires an assessment of future taxable profit. Deferred tax assets are only recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. The availability of future taxable profits depends on several factors including the group's future financial performance and if necessary, implementation of tax planning strategies.

6. Revenue

	Group 31-Dec-14 ₦'000	Group 31-Dec-13 ₦'000	Company 31-Dec-14 ₦'000	Company 31-Dec-13 ₦'000
Sale of sugar - 50kg	90,549,360	100,381,353	89,811,404	99,732,874
Sale of sugar - Retail	1,234,714	557,729	1,234,714	557,729

	94,855,203	103,153,735	94,103,677	102,467,361

Revenue comprises of both domestic and export sales.

6.1 Segment Information

Information reported to the chief operating decision maker (the Managing Director) for the purposes of resource allocation and assessment of segment performance is based on the entity as a whole as there is no other distinguishable component of the entity that engages in business activities from which it earns revenues and incurs expenses whose operating results are regularly reviewed by the Managing Director to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

Segment information is presented in respect of the group's reportable segments. For Management purposes, the Group is organised into business units by geographical areas in which the group operates and the locations that comprise such regions represent operating segments. The Group has 4 reportable segments based on location of the principal operations as follows:

Ghana, Northern Nigeria, Southern Nigeria, Eastern Nigeria and Lagos.

Notes to the Consolidated and Separate Financial Statements

6.2 Geographical information

6.3 Information about Major Customers

There is a single customer who buys industrial Non-Fortified Sugar that represents more than 10% of total sales during the year.

6.3.1 Large Corporate/Industrial Users

These are leading blue chip companies in Nigeria, and they include manufacturers of confectioneries and soft drinks. This group typically accounts for 30% of the company's sales. They buy Non-Fortified sugar exclusively.

6.3.2 Distributors

The company sells unfortified sugar mainly to pharmaceutical, food and beverage manufacturers, while Vitamin A-fortified sugar is sold to distributors who sell to small wholesalers, confectioners and other smaller value-adding enterprises who provide the distribution network to the Nigerian retail market. The Company sells a small amount of sugar directly to retail customers. Retail packaging comes in various sizes of 250g, 500g, and 1kg under the brand name "Dangote Sugar". Sales to Distributors account for 70% of the company's revenue.

6.3.3 The Company provides a delivery service to customers by transporting refined sugar to other destinations. Freight income represents revenue earned in this respect during the year. The associated cost of providing this service is included in cost of sales.

18. Held for Sale Investment in Subsidiary	Group 31-Dec-14 ₦'000	Group 31-Dec-13 ₦'000	Company 31-Dec-14 ₦'000	Company 31-Dec-13 ₦'000
	864,647	-	864,647	-

Amount represents investment made by the company in 2008 in Algeria for the intended purpose of expansion of the Company's activities through an Algerian Company SPA Dangote, Algeria. Subsequent to the payment for the Land, the Algerian Government, without revoking the Algerian company's title to the Land, refused the siting of the proposed Refinery at the Port citing that the site is not suitable for the intended purpose.

The company lost control over this company in late 2010. The balance has been disclosed as a Held for Sale Investment in subsidiary in 2014 (2013: Other receivables) as Management has obtained ownership to the land and is committed to selling the Land within the next 12 months.

Notes to the Consolidated and Separate Financial Statements

21.1 Trade Receivables

The average credit period on sales of goods is 30 days. Allowances for doubtful debts are recognised against trade receivables outstanding beyond 365 days based on estimated irrecoverable amounts. Previous experience has shown that receivables that are past due after 365 days are doubtful of recovery. Allowances for doubtful debts are recognised against trade receivables due over 180 days and below 365 days based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of their current position.

Before accepting any new customer to buy on credit, the customer must have purchased goods on cash basis for a minimum period of six months in order to test the financial capability of the customer. Based on good credit rating by the credit committee of the Group, the customer may be allowed to migrate to credit purchases after the presentation of an acceptable bank guarantee which must be valid for one year.

Trade receivables disclosed above include amounts (see below for aged analysis) that are past due more than 30 days as at the reporting date for which the Group has not recognised an allowance for doubtful debts because there has not been a significant change in credit quality and the amounts are still considered recoverable.

Notes to the Consolidated and Separate Financial Statements

21.2 Age analysis of trade receivables that are past due but not impaired

	Group 31-Dec-14 ₦'000	Group 31-Dec-13 ₦'000	Company 31-Dec-14 ₦'000	Company 31-Dec-13 ₦'000

Amounts recovered during the year	(1,033,748)	-	(11,543)	-
	682,087	1,715,834	682,087	647,151

21.3 Concentration Risk

About 32% of the trade receivables are due from a single customer. The Group evaluates the concentration of risk with respect to trade receivables as low, as the concentration is with a well-established local blue chip company. Its customers otherwise are diverse, including both corporate entities and a large number of individual end users. The requirement for impairment is analysed at each reporting date on an individual basis for corporate and individual customers.

22. Cash and Cash Equivalent

For the purpose of the statement of cash flows, cash and cash equivalents include cash on hand and in banks and short term deposits with 30 days tenure. Cash and cash equivalents at the end of the reporting period as shown in the statement of cash flows can be reconciled to the related items in the statement of financial position as follows:

	Group 31-Dec-14 ₦'000	Group 31-Dec-13 ₦'000	Company 31-Dec-14 ₦'000	Company 31-Dec-13 ₦'000
Cash in hand	13,091	13,953	13,091	13,271
Bank balances	6,189,387	3,791,413	6,103,872	3,201,517
Short term deposits	-	4,650,000	-	4,650,000
	6,202,478	8,455,366	6,116,963	7,864,788

The short term deposits are placed on call of 30 days tenure with interest ranging between 9% to 13%. All short term deposits have been liquidated as at end of 31st December, 2014.

26.1 On 12th December, 2014, the Group received a loan of ₦2 billion from a related party-Dangote Industries Limited for Short term Working Capacity purpose over a period of 90 days at the prevailing market interest rate of 13.5%. The loan is repayable in full at the end of the tenor plus interest on maturity. The Loan is not secured by assets of the company.

26.2 Group

Fixed interest rate agricultural loan with remaining maturity period not exceeding 3 years. The loan is at an interest rate of 9%.

27. Retirement Benefit Obligation

27.1 Defined Contribution Plans

The Group operates a defined contribution retirement benefit plan for all qualifying employees. The assets of the plans are held separately from those of the Group in funds under the control of trustees.

The employees contribute 8% of their gross salary (basic, housing and transport) while the Group contributes 10% of gross salary on behalf of the employees to the same plan.

The obligation of the Group and Company to the employer with respect to the retirement benefit plan is recognised as an expense in the statement of profit or loss and amounts are ₦117.5million. (2013: ₦93.3million) and ₦161.5million, (2013: ₦191million) respectively.

27.2 Defined benefit plans

The Group operated a defined benefit plan for all qualifying employees up till 30th September, 2013.

Under the plan, the employees were entitled to retirement benefits which vary according to length of service. At the date of discontinuation, qualified staff as at this date are to be paid their retirement benefit at the point of exit hence the recognition as a current liability as it is payable on demand. The amounts stated in the financial statement as at 2013 are based on actuarial valuation carried out in 2013.

For the purpose of comparison the present value of the defined benefit obligation, and the related current service cost and past service cost stated in the books up till 30th September, 2013 was measured using the Project Unit Credit Method.

About Us

Operational
Review

Corporate
Governance

Financial
Statements

Notes to the Consolidated and Separate Financial Statements

The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Project Unit Credit Method.

The most recent Actuarial Valuation was carried out in 2014 using the staff payroll of 30th September, 2013. In calculating the liabilities, the consultant took the following into recognition:

- ** length of service rendered by each member of staff at the review date
- ** discounting of the expected benefit payments.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to high quality corporate bond yields; if the return on plan asset is below this rate, it will create a plan deficit. Currently, the plan has a relatively balanced investment in equity securities, debt instruments and real estates. Due to the long-term nature of the plan liabilities, the board of the pension fund considers it appropriate that a reasonable portion of the plan assets should be invested in equity securities and in real estate to leverage the return generated by the fund.
Interest risk	A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

27.2a Financial Assumptions

The principal financial assumptions used for the purposes of the actuarial valuations were as follows:

- Long term average discount rate (p.a)
- Average pay increase (p.a)
- Average rate of inflation (p.a)

27.3 Demographic Assumptions

Mortality in Service

The rates of mortality assumed for employees are the rates published in the A67/70 tables, published jointly by the institute and the Faculty of Actuaries in the UK.

Notes to the Consolidated and Separate Financial Statements

27.4 Movement in gratuity

	Group 31-Dec-14 ₦'000	Group 31-Dec-13 ₦'000	Company 31-Dec-14 ₦'000	Company 31-Dec-13 ₦'000
Balance as at 1 January	1,356,067	1,260,869	1,356,067	1,260,869
Current service charge	216,094	122,819	-	122,819
Finance cost	-	121,845	-	121,845
Actuarial losses - change in assumption	-	(145,277)	-	(145,277)
Actuarial losses - experience	-	129,933	-	129,933
Benefits paid from plan	(44,413)	(81,237)	(44,413)	(81,237)
Curtailments Gains/Losses	-	(52,885)	-	(52,885)
	1,527,748	1,356,067	1,311,654	1,356,067

As at the date of the valuation, no fund has been set up from which payments can be disbursed. Dangote Sugar Refinery expects to settle its obligations out of its existing reserves. The contribution into the gratuity scheme was discontinued in 2013. At the date of discontinuation, all qualified staff as at date are to be paid their entitlement at the point of exit which classifies the outstanding balance as a current liability as it is payable on demand.

27.5 Retirement benefit plans

The amount included in the other comprehensive income arising from the entity's obligation in respect of its defined benefit plans is as follows:

	Group 31-Dec-14 ₦'000	Group 31-Dec-13 ₦'000	Company 31-Dec-14 ₦'000	Company 31-Dec-13 ₦'000

This represents advance payment by customers for finished goods

30. Financial Instruments

30.1The Group manages its capital to ensure that it will be able to continue as a going concern, while maximising the return to stakeholders through the optimisation of its capital structure.

The capital structure of the Group is made up of equity comprising issued capital, share premium and retained earnings. The Group is not subject to any externally imposed capital requirements.

The Group's risk management committee reviews the capital structure of the Group on an annual basis. As part of this review, the committee considers the cost of capital and the risks associated with each class of capital. The gearing ratio as at 31st December, 2014 of 10% (see below) was at the lower end of the target range.

Gearing ratio

The gearing ratio at year end is as follows:

	Group 31-Dec-14 N'000	Group 31-Dec-13 N'000	Company 31-Dec-14 N'000	Company 31-Dec-13 N'000
Debt (ii)	2,385,052	921,146	2,000,000	-
Cash and bank balances (including cash and bank balances in a disposal group held for sale)	(6,202,478)	(8,455,366)	(6,116,963)	(7,864,788)
Net Debt	(3,817,426)	(7,534,220)	(4,116,963)	(7,864,788)
Equity (ii)	51,608,598	47,159,173	58,526,203	53,817,512
Debt to equity ratio (%)	(7%)	(16%)	(7%)	(15%)

i. Debt is defined as both current and non-current borrowings.

ii. Equity includes all capital and reserves of the Group that are managed as capital.

Notes to the Consolidated and Separate Financial Statements

30.2 Categories of financial instruments

	Group 31-Dec-14 Loans and receivables ₦'000	Group 31-Dec-13 Loans and receivables ₦'000	Company 31-Dec-14 Loans and receivables ₦'000	Company 31-Dec-13 Loans and receivables ₦'000

	15,445,178	22,970,012	15,151,475	16,610,284

30.2.1 Defined as total trade and other receivables excluding prepayments, accrued income and amounts relating to taxation.

30.3 Liabilities

	Other Financial Liabilities	Other Financial Liabilities	Other Financial Liabilities	Other Financial Liabilities
Borrowings	2,385,052	921,146	2,000,000	-
Trade and other payables	22,880,116	17,592,848	22,174,411	17,321,453
	25,265,168	18,513,994	24,174,411	17,321,453

30.3.1 Defined as total trade and other payables excluding taxation and social security.

The borrowings disclosed above are classified as financial liabilities measured at amortised cost. The directors consider that the carrying amount of borrowings is approximately equal to their fair value.

30.4 Significant accounting policies

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the basis of measurement and the bases for recognition of income and expenses) for each class of financial asset, financial liability and equity instrument are disclosed in note 4.

30.5 The Group is exposed to market risk, credit risk and liquidity risks. The Parent Company's internal audit and risk management team is responsible for monitoring its exposure to each of the mentioned risks. This policy provides guidance over all treasury and finance-related matters and is underpinned by delegated authority guidelines and detailed procedures. The main objectives of the policy are to ensure that sufficient liquidity exists to meet the operational needs of the business, to maintain the integrity and liquidity of the investment portfolio, and to manage the impact of foreign exchange and interest rate volatility on the company's net income.

30.6 Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices are affected by interest rate risk and foreign exchange currency risk. Financial instruments affected by market risk include cash and cash equivalents, trade and other receivables and trade and other payables. Market risk exposures are measured using sensitivity analysis.

About Us

Operational
Review

Corporate
Governance

**Financial
Statements**

Notes to the Consolidated and Separate Financial Statements

30.6.1 Interest rate risk management

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group is exposed to fluctuations in interest rates on its borrowings. The Group pays fixed/floating rate interest on its borrowings. The company actively monitors interest rate exposures on its investment portfolio and borrowings so as to minimise the effect of interest rate fluctuations on the income statement. The risk on borrowings is managed by the company by maintaining an appropriate mix between fixed and floating rate borrowings. All loans, cash and cash equivalent are fixed interest based and therefore the company does not have any exposure to the risk of changes in Market rates

30.6.2 Interest rate sensitivity

The sensitivity analysis below have been determined based on the exposure to interest rates for Related party loan at the prevailing market interest rate of 13.5% at the end of the reporting period. A 250 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. A 250 basis points reflects a N50million impact on finance cost. A positive number below indicates an increase in profit or equity for a 250 basis points change in the Finance cost. A negative number below indicates a decrease in profit or equity for a 250 basis points change in the Finance cost.

30.6.3 Foreign currency risk management

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of changes in foreign exchange rates is limited to foreign currency purchases of operating materials (e.g. finished equipment and other inventory items) and trade receivables that are denominated in foreign currencies. Foreign exchange exposure is monitored by the Group's treasury unit.

The Naira carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	Liabilities		Assets	
	31-Dec-14	31-Dec-13	31-Dec-14	31-Dec-13
US DOLLARS	\$'000	\$'000	\$'000	\$'000
Trade and other payable	14,038,557	15,475,912	-	-
Bank Balance	-	-	5,019	442,994

Exchange rate of \$1 = 170.18

Foreign currency sensitivity analysis

The Group is mainly exposed to the US dollar.

30.6.4 Foreign currency risk management

The following table details the Group's sensitivity to a 15% (2013: 3%) increase and decrease in the Naira against the US Dollar. 15% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. A positive number below indicates an increase in profit or equity for a 15% change in the exchange rates. A negative number below indicates a decrease in profit or equity for a 15% change in the exchange rates.

	Liabilities		Assets	
	31-Dec-14	31-Dec-13	31-Dec-14	31-Dec-13
US DOLLARS	\$'000	\$'000	\$'000	\$'000
Effect on Profit or loss/Equity for a 15% (2013:3%) appreciation	2,105,783.51	464,277.36	(753)	(13,290)
Effect on Profit or loss/Equity for a 15% (2013:3%) depreciation	(2,105,784)	(464,277)	753	13,290

This is mainly attributable to the exposure outstanding on US dollar receivables and payables at the end of the reporting period.

Notes to the Consolidated and Separate Financial Statements

30.7 Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The Group is exposed to credit risk from its operating activities (primarily for trade receivables) and from its investing activities, including deposits with banks and other financial institutions. The Group has a credit management committee that is responsible for carrying out preliminary credit checks, review and approval of bank guarantees to credit customers. A credit controller also monitors trade receivable balances and resolves credit related matters.

30.7.1 Trade receivables (see note 20)

Concentration of risk

About 32% of the trade receivables are due from a single customer whose credit history is good. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are otherwise diverse including both corporate entities and lots of individual end users. The requirement for impairment is analysed at each reporting date on an individual basis for corporate and individual customers.

30.7.2 Deposits with banks and other financial institutions

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with its corporate treasury policy that spells out counterparty limits, list of financial institutions that the Group deals with and the maximum tenure of fixed term funds. Surplus funds are spread amongst these institutions and funds must be within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Corporate Treasurer periodically and may be updated throughout the year. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through the potential counterparty's failure.

30.7.3 Maximum exposure to credit risks

The carrying value of the Group's financial assets represents its maximum exposure to credit risk.

The maximum exposure to credit risk at the reporting date was:

		Group 31-Dec-14 ₦'000	Group 31-Dec-13 ₦'000	Company 31-Dec-14 ₦'000	Company 31-Dec-13 ₦'000
Trade receivables	Note 21	6,840,191	7,004,447	6,840,191	7,004,448
Other receivables	Note 21	3,964,459	11,247,491	3,943,186	5,613,450
Deposits with banks	Note 21	-	4,650,000	-	4,650,000
Amount due from related party	Note 31.3	3,208,193	1,021,587	31,300,946	25,409,164
		<u>14,012,843</u>	<u>23,923,525</u>	<u>42,084,323</u>	<u>42,677,062</u>

30.8 Liquidity risk management

The Company monitors its risk to a shortage of funds by maintaining a balance between continuity of funding and by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities. To manage liquidity risk, our allocation of letters of credit on raw sugar and spares/chemicals are spread over dedicated banks. Therefore, the establishment of these Letters of Credit which are commitments by the banks provides security to our funds placed on deposit accounts. In other words, our funds placed are substantially tied to our obligations on raw sugar and spares.

Notes to the Consolidated and Separate Financial Statements

30.8.1 Liquidity maturity table

The following table details the Group's and Company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cashflows of financial liabilities based on the earliest date on which the Group and the Company can be required to pay. The tables include both interest and principal cash flows.

Group

	Carrying amount ₦'000	Contractual amount		Total ₦'000
		Less than one year ₦'000	More than one year ₦'000	
Financial liabilities at amortised cost				
Non-interest bearing:				
Trade and other payables	25,226,985	25,226,985	-	25,226,985
Borrowings	2,385,052	2,385,052	-	2,385,052
	27,612,037	27,612,037	-	27,612,037

Company

	Carrying amount ₦'000	Contractual amount		Total ₦'000
		Less than one year ₦'000	More than one year ₦'000	
Financial liabilities at amortised cost				
Non-interest bearing:				
Trade and other payables	23,609,260	23,609,260	-	23,609,260
Borrowings	2,000,000	2,000,000	-	2,000,000
	25,609,260	23,609,260	-	25,609,260

Financial liabilities that can be repaid at any time have been assigned to the earliest possible time period. It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

Notes to the Consolidated and Separate Financial Statements

31. Related Party Information

31.1 Identity of Related Parties

Related parties Nature of related party transactions

Dangote Transport Limited services prior to 2010.	Fellow subsidiary company that provided haulage services prior to 2010
Dangote Textile Industries Limited (LPFO)	Fellow subsidiary company that exchanges inventory of Automotive Gas Oil (AGO) and low pour fuel oil
Dansa Foods Limited	An entity controlled by the Directors of the Company that has trading relationship with the Company.
National Salt Company of Nigeria (NASCON)	Fellow subsidiary from which the Company purchases raw salt as input in the production process

Non-current tax liabilities	
Borrowings	(1,453,930)
Intercompany loans	(1,107,592)
Deferred tax	(975,513)
	(932,969)

Notes to the Consolidated and Separate Financial Statements

32.3 Non-Controlling Interest

The Non-controlling interest (5% ownership interest in Savannah Company Limited recognised at the acquisition date was measured by the proportionate share of net assets method at ₦46.648million.

32.4 Net cash outflow on acquisition of subsidiaries

	2013 ₦'000
Consideration paid in cash	3,214,923
Less: cash and cash equivalent balances acquired	(134,775)
	3,080,148

32.5 Effect of acquisition of subsidiary under common control

The group has opted for merger accounting in accounting for subsidiary acquired

	2013 ₦'000
Purchase consideration	3,214,923
Parent Company's share of Net Assets acquired (95% in Savannah)	886,320
Effect of acquisition of subsidiary under common control	4,101,243

33. Contingent Liabilities

The Company is subject to additional assessed tax liability to the tune of ₦7.2 million, ₦17million and ₦75.99 million based on the tax audit carried by Lagos State Inland Revenue Service for Tax year 2011, 2012 and 2013 respectively.

The total of ₦4,312,736,234.98 was assessed by FIRS based on the Nationwide VAT and WHT verification exercise for the period from 2008 - 2013. This includes the withholding tax of ₦2,529,600,000 paid on dividend for the period under review which was remitted to FIRS through our Registrars, Veritas Registrars. Letter of objection to the liabilities assessed against the company with all required documents have been acknowledged by FIRS without any response. No provision has been made for this assessment based on the evidences provided by the company against the claims for which responses were yet to be received as at the year end.

The Company is subject to disputes and claims that arise in the normal course of business. As at 31st December, 2014, the entity was subject to claims and disputed amounts of ₦31 million (2013: ₦244 million) We have made adequate provisions for these contingencies for the current year based on advice from the Company's legal experts that this is the estimated likely liability payable by the Company.

Contingent Assets

None

34. Capital Commitments

As at 31st December, 2014, there were capital commitments in respect of the Lagos factory expansion which amounted to ₦716 million (2013: ₦475.8 million).

35. Event after the Reporting Period

At the board meeting held on 31st March, 2015, the Board recommended a dividend of 40 kobo per ordinary share to be paid to shareholders (total value ₦4,800,000,000) for the year ended 31st December, 2014. This is subject to approval at the Annual General Meeting of the Group.

Unclaimed Dividend Position as at 31st December, 2014

The Company has been declaring Dividend since it became a public Company in March, 2007. Currently, the dividend account indicates that some dividend warrants have not been presented to the Bank for payment, while others were returned to the Registrar unclaimed, because the addresses have changed or could not be traced.

Financial Year	Dividend No	Final/Interim	Total Dividend Declared (₦)	Net Amount Unclaimed as at 31-Dec-14
11/04/2007	1	Final	11,388,819,816.78	1,079,570.00
27/04/2007	2	Interim 1	3,433,139,219.03	575,157.00
09/09/2007	3	Interim 2	3,257,223,236.85	747,539.00
31/10/2007	4	Interim 3	3,192,370,844.23	517,180.00
09/04/2008	5	Half Year Interim	5,000,000,000.00	452,470.00
08/09/2008	6	Final	10,200,000,000.00	2,803,380.00
03/07/2009	7	Final	3,780,817,535.25	16,723,000.00
30/07/2010	8	Final	10,800,000,000.00	53,786,700.00
25/05/2011	9	Final	6,480,000,000.00	3,801,871.00
18/05/2012	10	Final	3,240,000,000.00	79,117,815.00
